I am in total agreement with local residents. The infrastructure cannot handle this many families. I live in Fairhope and we are having many problems due to overdevelopment. The developers are not interested in helping with drainage. They are interested in money. These drainage ponds absorb dirt and poisons from building. They turn brown and create homes for snakes and alligators. You cannot fish and kayak safely and you certainly can't eat fish from poisons in water. Baldwin County is losing all of its beautiful farmland and our wild animals are being driven from their homes. They are frequently found dead on highways and increased traffic. Please take care of our county. Please vote against more huge developments.
