

# Baldwin County Planning & Zoning Department

## Baldwin County Commission Staff Report

**Case No. PRD25-06**

**Seaglade at St. Andrews Bay**

**A 27-site Planned Residential Development (PRD) – Site Plan Approval**

**December 16, 2025**

## Subject Property Information

**Planning District:** 25

**General Location:** Located south of State Highway 180 and east of Pontoon Lane in Gulf Shores

**Physical Address:** No address provided

**Parcel Numbers:**

**Existing Zoning:** RSF-4 & RSF-1, Residential Single-Family District  
**Proposed Zoning:** RSF-4 & RSF-1 with PRD  
**Existing Land Uses:** Vacant  
**Proposed Land Use:** Residential  
**Acreage:** 10.53 ± acres  
**Applicant:** Goodwyn Mills Cawood, LLC  
 2039 Main Street  
 Daphne, AL 36526  
**Owner:** Real Estate Inventories, LLC  
 103 N Ingleside Street  
 Fairhope, AL 36532  
**Lead Staff:** Cory Rhodes, Planner  
**Attachments:** *Within Report*

	Adjacent Land Use	Adjacent Zoning
North	Vacant	RTF-4, Residential Two Family District RMF-6, Residential Multiple Family District
South	Residential	RSF-1, Residential Single Family District
East	Vacant	RTF-4, Residential Two Family District
West	Vacant	RTF-4, Residential Two Family District

### Summary

The development comprises approximately 10.53 acres within Planning District 25. Currently, the subject properties within Planning District 25 are zoned either RSF-1, Residential Single Family District or RSF-4, Residential Single Family District. The applicant is requesting that the zoning be retained with approval of a 27-lot Site Plan. The Planned Residential Development (PRD) is requested to serve as an overlay to the existing zoning classifications. Residential Single Family (RSF-1) zoning permits a density of 1.4 units per acre, while Residential Single-Family (RSF-4) zoning allows for 5.8 units per acre. The applicant is requesting that the RSF-1 zoned area revert to the lots of record, each of which are 0.17 acres (7,405 SF) (aside from Lot 27, which is 0.23 acres). The overall development density is approximately 2.56 units per acre. Based on the existing RSF-1 and RSF-4 zoning, up to 42 lots could be accommodated; however, the applicant is proposing 27 lots. The PRD designation allows for flexibility in lot size, width, and setbacks, while maintaining the underlying density.

## Section 4.2 RSF-1, Single Family District

**4.2.1 Generally.** This zoning district is provided to afford the opportunity for the choice of a low density residential environment consisting of single family homes on large lots.

**4.2.2 Permitted uses.** Except as provided by *Section 2.3: Establishment of Zoning in Planning Districts*, the following uses and structures designed for such uses shall be permitted:

- (a) The following general industrial uses: extraction or removal of natural resources on or under land.
- (b) The following transportation, communication, and utility uses: water well (public or private).
- (c) The following agricultural uses: Silviculture.
- (d) Single family dwellings including manufactured housing and mobile homes.
- (e) Accessory structures and uses.
- (f) The following institutional use: church or similar religious facility.
- (g) Agricultural uses, on RSF-1 zoned parcels that otherwise meet the minimum area and dimension requirements for Rural Agricultural District under Section 3.2.6 herein, agricultural uses shall be permitted uses, except that the minimum front yard for barns and other agricultural structures shall be 100 feet when constructed on an RSF-1 zoned parcel where no primary dwelling currently exists.

**4.2.3 Conditional Use Commission Site Plan Approval.** Except as provided by *Section 2.3: Establishment of Zoning in Planning Districts*, the following uses and structures designed for such uses may be allowed by the site plan approval process:

- (a) Outdoor recreation uses.
- (b) The following institutional uses: day care home; fire station; school (public or private).
- (c) The following general commercial uses: country club.
- (d) The following local commercial use: bed and breakfast or tourist home (see Section 13.10: *Bed and Breakfast Establishments*).

4.2.4 *Special exception.* Except as provided by Section 2.3: Establishment of Zoning in Planning Districts, the following use and structures designed for such use may be allowed as a special exception: Not Applicable

4.2.5 *Area and dimensional ordinances.* Except as provided by Section 2.3: Establishment of Zoning in Planning Districts, Section 12.4: Height Modifications, Section 12.5: Yard Requirements, Section 12.6: Coastal Areas, Section 12.8: Highway Construction Setbacks, Section 18.5: Variances, and Article 20: Nonconformities, the area and dimensional ordinances set forth below shall be observed.

Maximum Height of Structure	35-Feet
Maximum Height in Habitable Stories	2 ½
Minimum Front Yard	30-Feet
Minimum Rear Yard	30-Feet
Minimum Side Yards	10-Feet
Minimum Lot Area	30,000 Square Feet
Minimum Lot Width at Building Line	100-Feet
Maximum Ground Coverage Ratio	.35

**Section 4.5 RSF-4, Single Family District**

4.5.1 *Generally.* This zoning designation is provided to afford the opportunity for the choice of a moderate density residential development consisting of single-family homes.

4.5.2 *Permitted uses.* Except as provided by Section 2.3: Establishment of Zoning in Planning Districts, the following uses and structures designed for such uses shall be permitted:

- (a) The following general industrial uses: extraction or removal of natural resources on or under land.
- (b) The following transportation, communication, and utility uses: water well (public or private).
- (c) The following agricultural uses: Silviculture.
- (d) Single family dwellings including manufactured housing and mobile homes.
- (e) Accessory structures and uses.
- (f) The following institutional use: church or similar religious facility.

**4.5.3 Conditional Use Commission Site Plan Approval.** Except as provided by *Section 2.3: Establishment of Zoning in Planning Districts*, the following uses and structures designed for such uses may be allowed by the site plan approval process:

- (a) Outdoor recreation uses.
- (b) The following institutional uses: day care home; fire station; school (public or private).
- (c) The following general commercial uses: country club.
- (d) The following local commercial use: bed and breakfast or tourist home (see *Section 13.10: Bed and Breakfast Establishments*).

**4.5.4 Special exception.** Except as provided by *Section 2.3: Establishment of Zoning in Planning Districts*, the following use and structures designed for such use may be allowed as a special exception: Not Applicable

**4.5.5 Area and dimensional ordinances.** Except as provided by *Section 2.3: Establishment of Zoning in Planning Districts*, *Section 12.4: Height Modifications*, *Section 12.5: Yard Requirements*, *Section 12.6: Coastal Areas*, *Section 12.8: Highway Construction Setbacks*, *Section 18.5: Variances*, and *Article 20: Nonconformities*, the area and dimensional ordinances set forth below shall be observed.

Maximum Height of Structure	35-Feet
Maximum Height in Habitable Stories	2 ½
Minimum Front Yard	30-Feet
Minimum Rear Yard	30-Feet
Minimum Side Yards	10-Feet
Minimum Lot Area	7,500 Square Feet
Minimum Lot Width at Building Line	60-Feet
Maximum Ground Coverage Ratio	.35

### Staff Analysis and Findings

The requirements and standards for review and approval of Planned Developments are found within Article 9 of the Baldwin County Zoning Ordinance. According to Section 9.1, "It is the purpose of this article to permit Planned Developments which are intended to encourage the development of land as planned communities, encourage flexible and creative concepts of site planning; preserve the natural amenities of the land by encouraging scenic and functional open areas; accomplish a more desirable environment than would be possible through the strict application of the minimum requirements of these ordinances; provide for an efficient use of land resulting in smaller networks of streets and utilities where access to regional systems is impractical and thereby lowering development and housing costs; and provide a stable environmental character compatible with surrounding areas." Specific variations in off-street parking and loading requirements, sign requirements,

landscaping requirements and area and dimensional requirements, including lot sizes, lot widths, setbacks and building height, may be approved by the County Commission.

The proposed 27-unit development on 10.53 acres is to be known as Seaglade at St. Andrews Bay. This development will be considered a “Small Scale Planned Development” and is seeking conceptual site plan approval. A small scale planned development is a development of land, occupying at least three (3) acres and less than two hundred and fifty (250) contiguous acres, that is under unified control and is planned and developed as a whole in a single development operation or programmed series of development states. Small Scale Planned Developments are required to obtain Final Site Plan approval.

Per applicant documentation, “Homes in the Seaglade PRD will be offered for sale on individual lots. A review of the tax assessor’s records of nearby homes indicates that a large majority of property owners’ addresses differ from the physical property address. Therefore, it is assumed that the target market for the Seaglade PRD will be primarily investment buyers for either second home/vacation properties, or for rental/income properties.”

The development will feature single family homes built on pilings above the corresponding base flood elevation. Lot sizes will range from approximately 7,243 square feet to 11,094 square feet (0.17 acres to 0.25 acres). The project includes approximately 4.43 acres of undisturbed and protected open space, which is designated as habitat conservation for the Alabama Beach Mouse (ABM). Additionally, about 0.44 acres of wetlands have been delineated, and the site plan includes a 30-foot buffer zone surrounding these wetlands. Homes will be served by a 30’-wide private, shared access road along the northern property line, connecting Pontoon Lane to Triple Tail Lane. Per applicant, “Homes in the proposed development will connect to readily available public utilities for water, sewer, internet/telephone, electrical power, and trash removal. Individual services for each home will be provided via connections to new water and sewer mains installed within the private access road that are looped to existing utilities within the Fort Morgan Road right-of-way.”

According to the Master Plan, the area is primarily designated for Conservation Development density. Conservation Development Potential allows for limited development based on low-impact design principles, encouraging clustering of residential dwellings to protect open space that is valued for natural resource protection. Staff has reviewed the submitted documentation and determined that the request is compliant with the requirements for a Planned Residential Development (PRD).

#### Staff Comments and Recommendation

Upon review of the Planned Residential Development requirements outlined in Article 9 of the *Baldwin County Zoning Ordinance* and the *Baldwin County Subdivision Regulations*, staff has determined that this request is compliant with the requirements for a Planned Residential Development.

If it is the pleasure of the County Commission to approve the site plan, the following conditions would apply:

1. If the Site Plan and required submittals are approved by the County, the applicant must then submit Preliminary and Final Site Plans in accordance with Section 9.5 of the *Baldwin County Subdivision Regulations* prior to any commencement of development activity.

### Locator Map

## Site Map

## FLUM

Conservation Development Potential Areas are suitable for all of the land uses described in the Ideal Conservation/Preservation Areas place type but would allow for limited development based on low-impact design principles. Allowing conservation-based subdivisions in these areas could help to balance the pressure of residential development with environmental preservation and rural character. Conservation-based subdivisions allow for the clustering of residential dwellings to protect open space that is valued for natural resource protection—such as stream buffers, mature forest habitat, or wetlands—working farmland, or recreational amenities.

### PRIMARY LAND USES

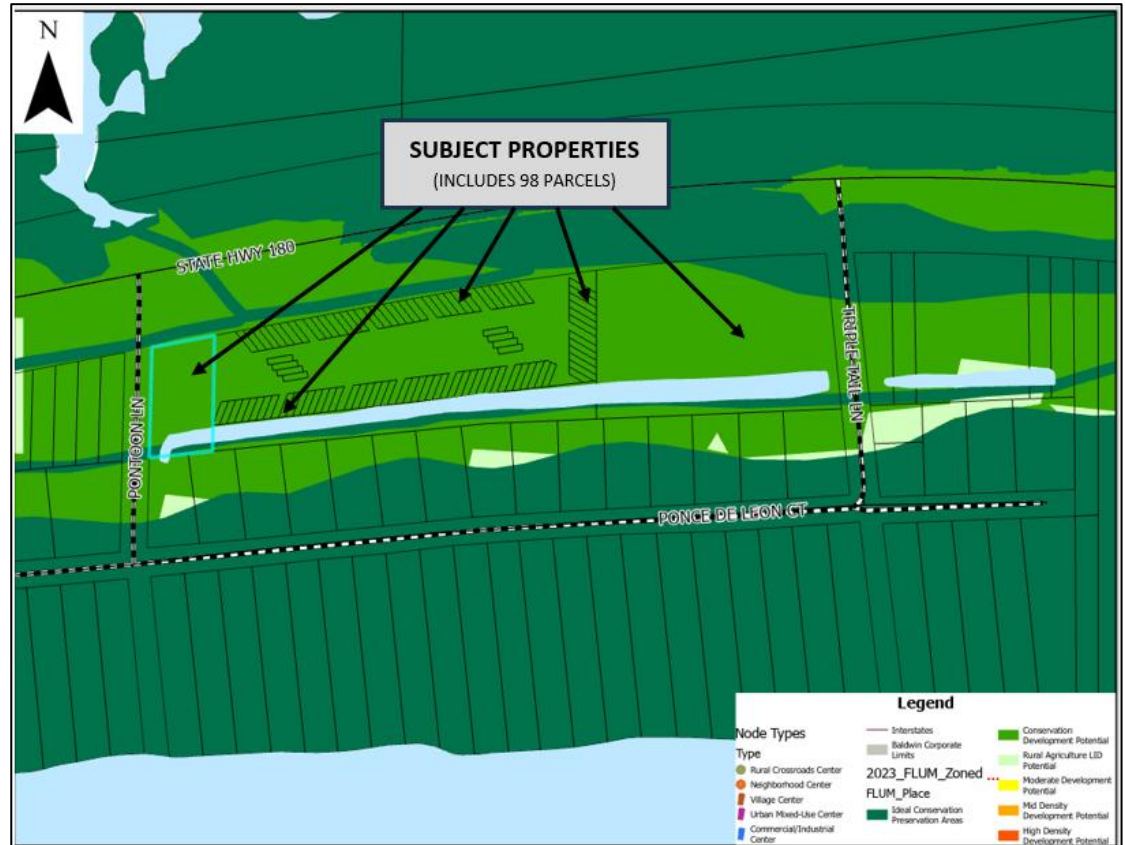

- Conservation-based or cluster development with high levels of Low Impact Design (LID) and sustainable development practices
- Natural areas that are publicly and privately owned and managed
- Permanently protected lands such as conservation easements, parks, cemeteries
- Parks and open spaces devoted primarily to passive recreation and trails
- Lands with important cultural landmarks or assets
- Scenic view protection

### RELATED ZONING DISTRICTS

- Environmental Conservation
- CR Conservation Resource District
- OR Outdoor Recreation District

### CONNECTIVITY NETWORK

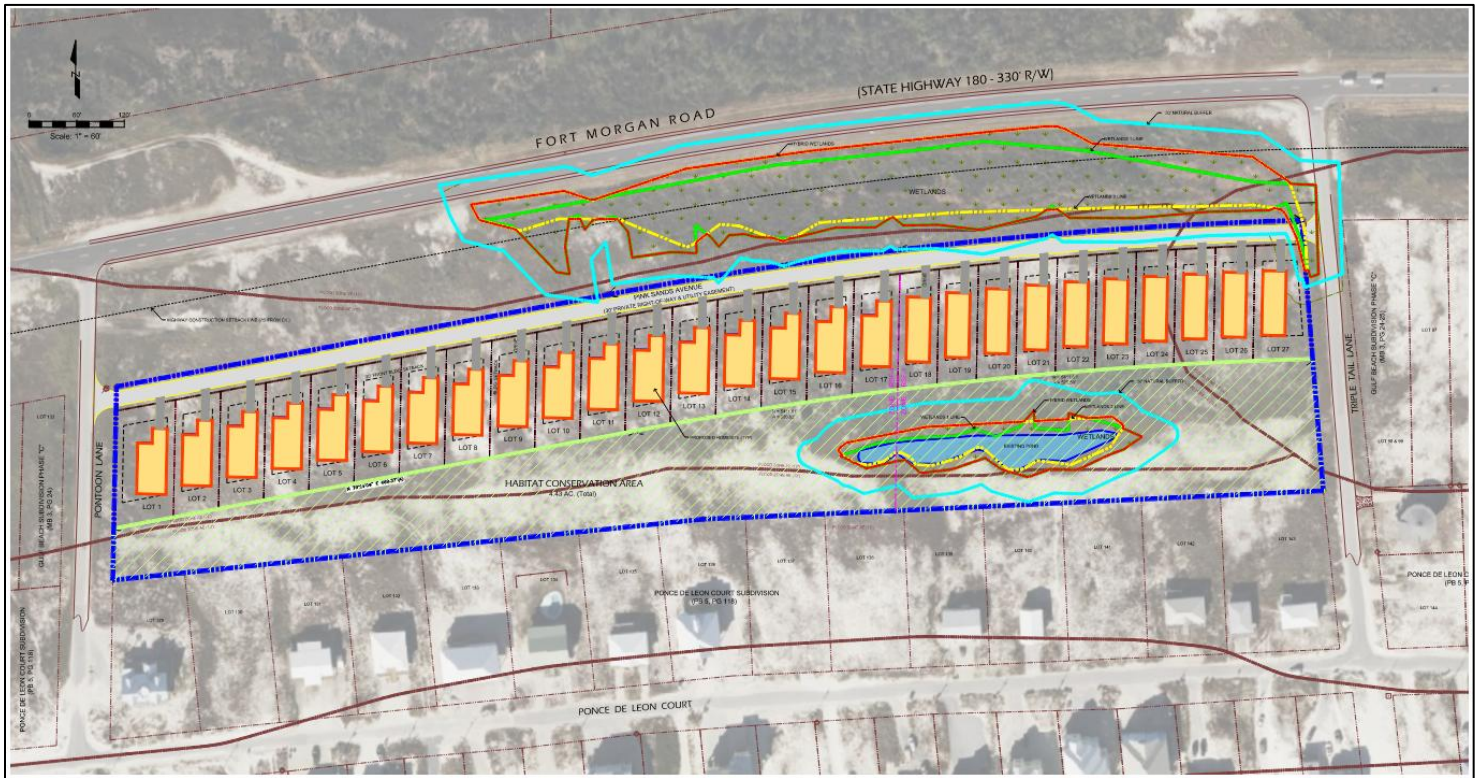

- Rural streets with paved shoulders, bike lanes, or side paths
- Greenways and trails along environmental buffers

## Master Plan with Aerial Overlay

## PRD Deviation Summary

### Baldwin County Zoning Ordinance (Amended May 20, 2025):

Section	Section Title Summary	Regulation Requirement	Deviation and Reason
2.3.25.3(e)	Local Provisions for Planning District 25	The maximum height of single family and two-family structures shall be limited to two (2) habitable stories.	Maximum height of single-family homes is 2-1/2 stories. Provide flexibility in design.
4.2.5 RSF-1	Area and dimensional ordinances	Min. Front Yard = 30' Min. Lot Area = 30,000 sf Min. Lot Width = 100' Max. Ground Coverage Ratio = .35	Min. Front Yard = 20' No Min. Lot Area Min. Lot Width = 48' Max. Ground Coverage Ratio = .5 Minimize ABM disturbance.
4.5.5 RSF-4	Area and dimensional ordinances	Min. Front Yard = 30' Min. Lot Area = 7,500 sf Min. Lot Width = 60' Max. Ground Coverage Ratio = .35	Min. Front Yard = 20' No Min. Lot Area Min. Lot Width = 48' Max. Ground Coverage Ratio = .5 Minimize ABM disturbance.
9.3.3(c) PRD	Design	Neighborhoods should be oriented around an activity center(s).	No activity centers required. Minimize ABM disturbance.
10.4.4 10.4.6	Permit requirements. Subdivisions in Wetland Protection Overlay District.	Min. 30' natural buffer to jurisdictional wetlands.	Wetland buffers can be reduced to 10' on Lot 27. Previously permitted by USACE.
13.11	Stormwater Management	All stormwater management plans shall comply with Section 5.11 and Section 5.12 of the Subdivision Regulations to the extent applicable.	The PRD is exempt from Section 13.11 and all references to said section. Stormwater management shall be in compliance with U.S. FWS stipulations contained in the ITP (Incidental Taking Permit). Minimize ABM disturbance.
Article 17	Open Space, Landscaping and Buffers		PRD is exempt from all sections of, and references to, Article 17. Minimize ABM disturbance.

### Baldwin County Subdivision Regulations (January 7, 2025):

Section	Section Title Summary	Regulation Requirement	Deviation and Reason
5.2.2(d)	Display of Wetlands and Existing Stormwater Management Areas on Plat or Site Plan	Min. 30' natural buffer to jurisdictional wetlands.	Wetland buffers can be reduced to 10' on Lot 27. Previously permitted by USACE.
5.2.5(e)	Easements	An easement, a minimum of 15 feet wide on the external rear and/or side lot lines and 10 feet wide on the interior rear and/or side lot lines shall be provided for utilities as required by the utility providers and/or the Baldwin County Planning Commission.	No easements shall be provided along lot lines or boundaries of the PRD. Prohibited by FWS.
5.4(a)	Lots	The minimum lot size and lot width for non-exempt subdivisions shall be as provided in Table 5.1 in Section 5.1.1.	Min. Front Yard = 20' No Min. Lot Area Min. Lot Width = 48' Minimize ABM disturbance.
5.5.1	Privately Maintained Streets	They are constructed according to the standards of these regulations;	No curb & gutter or sidewalks shall be required. Private road shall be 30' Right-of-Way, 18' wide paved road, 2' shoulders. Minimize ABM disturbance.
5.11 & 5.12	Stormwater Management Stormwater Management Facilities	The responsible Design Engineer shall not submit any plat of a subdivision which does not make provision for stormwater runoff as required by these regulations.	The PRD is exempt from Sections 5.11 and 5.12 and all references to said sections. Stormwater management shall be in compliance with U.S. FWS stipulations contained in the ITP (Incidental Taking Permit). Minimize ABM disturbance.
Article 6	Open Space, Landscaping and Buffers		PRD is exempt from all sections of, and references to, Article 6. Minimize ABM disturbance.
