 Labor Day, Thanksgiving, Christmas Eve, Christmas Day

Materials Cost Plus Rate 15%

Exception(s): In network mapping, Baldwin County will provide us with existing field notes. We will build upon those notes and our field inspections to document or blueprint route and enclosure locations. While the networking software program does allow for splicing detail audit, that is not included in this bid. That additional pricing can be discussed and added at a later time as it involves hours for splice techs to open and audit every enclosure.
