Staff Analysis and Findings

The criteria for reviewing zoning amendments are outlined in Section 19.6 of the Baldwin County Zoning Ordinance. Staff carefully considered all of these factors during the evaluation of the application.

(a) Degree of compatibility of the proposed rezoning with existing and allowable land uses in the vicinity.

The subject property encompasses approximately 155.5 acres, and a request has been made to change the designation to RSF-3 to subdivide. The adjoining properties are zoned RA or Single Family Residential, ranging from RSF-1 to RSF-4.

(b) Degree of conformity of the proposed rezoning to the Master Plan.

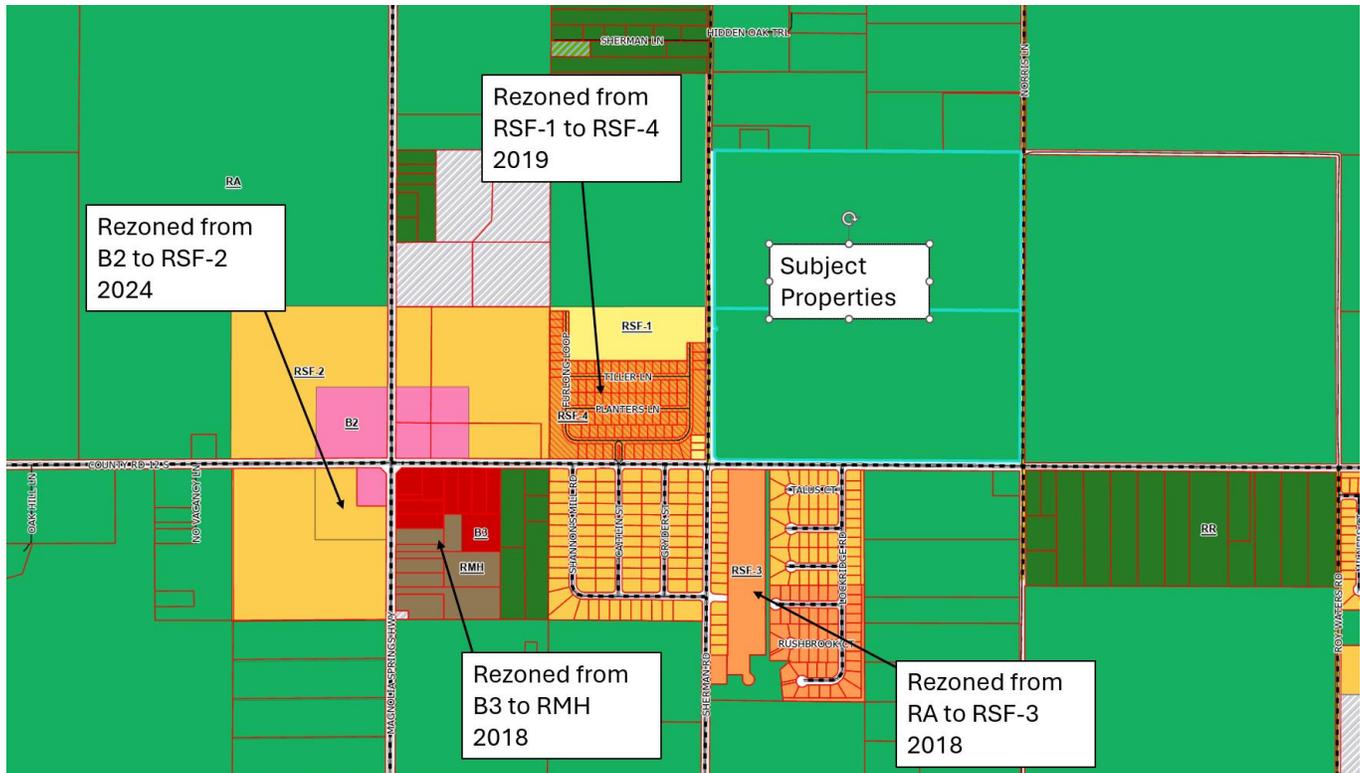

The Future Land Use Map (FLUM) represents a combination of development and environmental suitability factors, which direct growth and development patterns for the unincorporated areas of the County. The FLUM identifies the subject property and surrounding area as having primarily Rural/Agriculture/Low Impact Development Potential with some Ideal Conservation/Preservation Area and Conservation Development Area. These place types allow for a range of conservation, RR, RA and RSF-E.

(c) Proximity of the proposed rezoning to existing transportation network and utility infrastructure.

The subject property is located on Major Collector. A major collector serves as an intermediate link in the traffic hierarchy, gathering traffic from local streets and neighborhoods and funneling it onto higher-speed arterial roads

(d) Timing of the request and development trends in the area.

The surrounding area is low to mid density residential development or rural. Properties to the north, south, and east is rural in character. Properties close to the intersection of County Rd 12 S and Magnolia Springs Hwy are commercial and moderate residential. Below is a map of the rezonings in the immediate area that have been rezoned since Planning District 21 was zoned in 2008.

(e) Impacts on environmental conditions of the vicinity or the historic resources of the County.

There are areas of potential wetlands on the subject property, if this property is developed a wetland delineation will be needed. No historic or cultural resources should be affected, as the property is not within a Historic district.

(f) Impacts to the health, safety and welfare of the County and the vicinity.

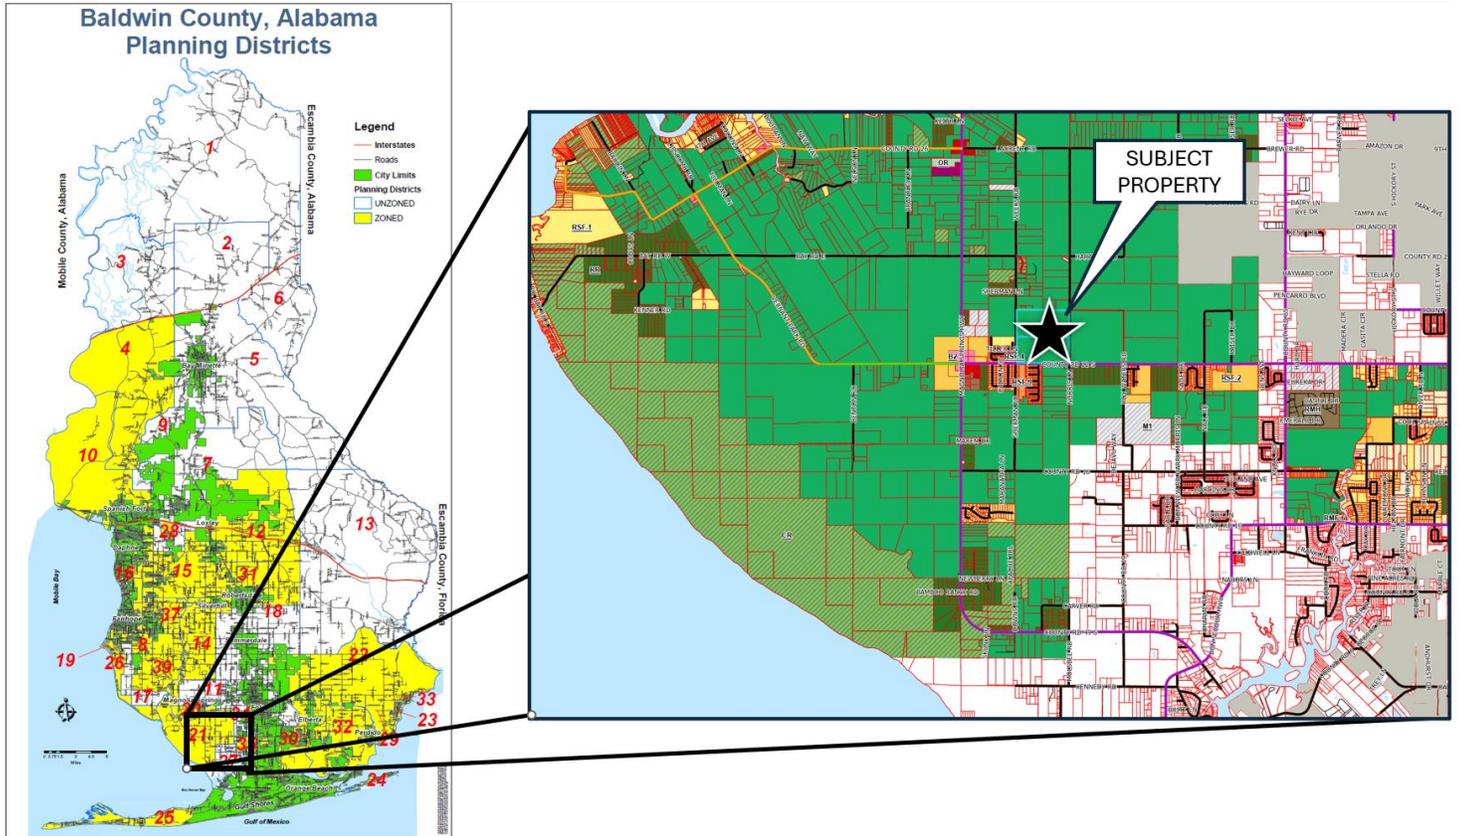

The proposed request should have no impact to the health, safety and welfare of the property or surrounding properties. If the subject property is developed the applicant will need to supply will serve letters for water and sewer.

Staff Comments and Recommendation

Upon review of the *Factors for Reviewing Proposed Zoning Map Amendments* specified within Section 19.6 of the Baldwin County Zoning Ordinance and themes of the Baldwin County Master Plan, staff has determined that the requested Zoning Map Amendment is **somewhat consistent** with the factors specified within the Baldwin County Zoning Ordinance and is **not consistent** with the Baldwin County Master Plan Future Land Use Map.

The requested Zoning Map Amendment was also evaluated using the Smart Growth Scorecard (attached) which **somewhat supports** the request.

SMART GROWTH SCORECARD TOOL

Score each element based on the following: +2 (Strongly Supports), +1 (Somewhat Supports), -1 (Somewhat Does Not Support), and -2 (Strongly Does Not Support). Each category will be totaled and then combined for a final score to evaluate whether the development aligns with the vision and themes of the Master Plan. The following final score ranges will be used in this evaluation.

STRONGLY SUPPORTS	SOMEWHAT SUPPORTS	SOMEWHAT DOES NOT SUPPORT	STRONGLY DISAPPROVE
Score of 20 to 40	Score of 0 to 19	Score of 0 to -19	Score of -20 to -40

Does the size & scale of the proposal fit the recommendations in the Master Plan and the character of the surrounding community?	Evaluate the uses identified for the area in the Master Plan not the "equivalent zoning"					-2
Is the property located within 1/2 mile of a municipal boundary or node identified in the Master Plan?	Rate +2 if property is within 1/2 mile, +1 for 1/2 to 1 mile, -1 for 1 to 1.5 mile, & -2 for outside of 1.5 mile. Total Master Plan Score (out of 10 points)						-4
Proximity to Transportation & Utility Infrastructure						2 1 -1 -2
Is the property located within 1/2 mile of an existing roadway that is classified appropriately to support the proposed use?	Major projects should be located near collector road or greater. Minor projects should be located near local street or greater.	2				
Does the property allow access from at least two existing or planned streets?	Existing or planned streets located outside of the applicant property.	2
