REQUEST FOR PROPOSALS FOR DEBRIS REMOVAL & DISPOSAL MONITORING SERVICES BALDWIN COUNTY COMMISSION

The Baldwin County Commission ("County") requests proposals from qualified firms for Debris Removal and Disposal Monitoring Services in the event of a natural or man-made disaster as directed by the County. This solicitation by the County will result in the selection of a qualified and experienced firm to monitor disaster generated debris removal and lawful disposal from public rights of way and other public property/areas designated as eligible by the County.

The objective of the RFP is to secure the services of a qualified, experienced firm capable of efficiently monitoring large volumes of disaster-generated debris removal and disposal activities from a relatively large geographical area in an accurate, timely and cost-effective manner. The successful firm must be capable of assembling, directing and managing a work force that can perform the monitoring services during the preplanning, preparedness, and training times as well as through the duration of the debris removal and disposal operations.

It is the intent and purpose that this RFP promotes competitive selection. It shall be the proposer's responsibility to advise the County if any language, requirements, etc., or any combination thereof, inadvertently restricts or limits the requirements stated in this RFP to a single source.

Baldwin County is located in South Alabama, USA and has a population of 261,608 citizens based upon current 2024 records.

The County encompasses approximately 1,590 square miles of land. County improved and/or maintained roads account for roughly 1,600 miles. However, close to 2,000 miles of roads account for active residential solid waste stops of approximately 50,000 households and/or businesses. Baldwin County has just over 100 parks and other facility grounds managed by the county.
