Instructions

Please complete all the applicable fields below. Each field will include the necessary instructions to adequately complete the field. If a question requires supplemental instructions or clarifications, those will be found in the Appendices. Once submitted, this Activity Profile Form (and applicable attachments) will be reviewed for completeness and eligibility.

Subrecipients are encouraged to contact Tammy Perdew (tammy.perdew@adeca.alabama.gov) for technical assistance if any clarifications are needed to complete this Activity Profile Form.

Proposed Project/Program Name:	County Road 65 from CR 34 to CR 36
Proposed Project/Program Amount:	\$4,096,373.00

1. Activity Profile Subrecipient Information

1a. Subrecipient Information					
Subrecipient Name:		Baldwin County Commission			
Subrecipient Address:		312 Courthouse Square, Suite 11			
City/Zip:		Bay Minette		County:	Baldwin
Phone:	251-580-1877	E-Mail:	Jeb.Ball@baldwincountyal.gov		
Subrecipient EIN #	63-6001408	SAM ID#:	MMDHCQ2E82J5	STAARS VSS Acct#	
Chief Elected Officer:		James E. (Jeb) Ball			
Alternate Contact (if different than above):		Frank Lundy			
Phone:	251-937-0371	E-Mail:	flundy@baldwincountyal.gov		
1b. Collaborator (if applicable)					
Is the subrecipient collaborating with another entity (i.e., county or municipality) to implement the proposed project?			<input type="checkbox"/> Yes- Complete the section below <input checked="" type="checkbox"/> No- Proceed to section 1c		
Collaborator Entity Name:					
Collaborator Address:					
City/Zip:				County:	
Phone:		E-Mail:			
EIN #:		SAM ID#:		STAARS VSS Acct#	
Chief Elected Officer:					
Alternate Contact (if different than above):					
Phone:		E-Mail:			
<input type="checkbox"/> Activity profiles involving multiple jurisdictions must include a draft of an Interlocal Agreement, Memorandum of Understanding, or similar agreement that defines each entity's roles and responsibilities regarding the project, including for such items as ongoing maintenance, transfer of property that needs to be acquired, etc.					

1c. Supplemental Information	
Identify the name, telephone, and district # of the State Senator(s) representing your jurisdiction.	State Senator Greg Albritton Senate District No. 22, 251-937-0240 State Senator Chris Elliott – Senate District No. 32, 251-990-4615 State Senator Vivian Davis Figures – Senate District 33, 334-261-0871
Identify the name, telephone, and district # of the State Representative(s) representing your jurisdiction.	State Representative Donna Givens – House District No. 64, 251-990-4615 State Representative Alan Baker - House District No. 66, 251-867-0244 State Representative Jennifer Fidler – House District No. 94, 251-990-4615 State Representative Frances Holk-Jones – House District No. 95, 251-990-4615 State Representative Matt Simpson – House District No. 96, 251-990-4615 State Representative Shane Stringer – House District No. 102, 334-261-0594 State Representative Brett Easterbrook House District No. 65, 334-261-0402
Identify the U.S. Congressman representing your jurisdiction and congressional district number.	Honorable Barry Moore, Alabama's 1 st Congressional District

2. Project Aspects

This section will be used by ADECA to determine the basic eligibility of the proposed project/program and how well it aligns with program and grant requirements, goals, and objectives. Subrecipients should provide enough details to allow ADECA to properly evaluate the responses.

2c. Infrastructure/Economic Development Project Summary
<p>Provide an overview of the proposed infrastructure, economic development, or mitigation project/program for which funding is being requested. Provide a narrative that describes the following about your project/program:</p> <ul style="list-style-type: none"> • A detailed project scope • The project's goals • How it aligns with LRP recovery strategies • A description of the existing conditions that are to be addressed/alleviated • The proposed solutions to address/alleviate those conditions • And any other information that is needed to clearly present the project to ADECA.

Prior to completing this field, subrecipients are advised to review the remaining questions in this section of the form to avoid redundancy when answering the different fields.

Is this project proposing a: ☐ Public Facility Improvement ☒ Infrastructure Improvement
☐ Commercial Facility Improvement ☐ Other (describe below)

The Project includes construction of 0.5 miles of new roadway between County Road 34 and County Road 36 and is part of a comprehensive project to improve the County Rd 65 (CR-65) corridor to improve safety, increase capacity, and support economic competitiveness in the region.

According to the Baldwin County Economic Development Alliance, Baldwin County is the fastest growing county in Alabama, with more than 63% population growth since 2000. That rapid growth has stressed current infrastructure, and Baldwin County is expected to add more than 48,000 residents by 2030. The Project improvements are needed to keep pace with this growth and prepare for future demand, as well as satisfy increased demand for connections.

The extension of CR-65 will restore capacity lost when State Highway 59, the preexisting route between CR-28 and CR-32, was damaged by Hurricane Sally. CR-65 is also a hurricane evacuation route for Baldwin County and is critical to quickly and safely allow citizens and visitors to evacuate when needed. This corridor also provides improved access to the Baldwin County Coliseum, the Mass Care and Medical Needs shelter of Last Resort in this area, as designated by the Baldwin County Emergency Management Agency. This project will improve roadway resiliency within the county and will also address redundancy, strengthening north-south routes in the area.

2e. Recovery or Mitigation Project (or Both?)

The project/program must either be a disaster recovery project, a mitigation project, or meet the definition of both recovery and mitigation:

- 1) A **recovery** activity is one that demonstrates a clear, justifiable direct or indirect tie back to the disaster, and addresses a disaster recovery need described in the impact and unmet needs assessment in the ADECA Public Action Plan.
- 2) Unlike disaster recovery activities, **mitigation** activities do not require a direct tie back to the disaster. Rather, a mitigation project will be required to demonstrate how it will increase resilience to disasters and reduce or eliminate the long-term risk of loss of life, injury, damage to and loss of property, and suffering and hardship, by lessening the impact of future disasters. Mitigation projects must also demonstrate how they will address current and future risks as identified in ADECA's mitigation needs assessment.

Depending on the type of project/program it is, provide a narrative below that addresses the applicable criteria above. In the event the project exhibits properties of both recovery and mitigation projects, provide an explanation that satisfies both.

For mitigation activities specifically, also indicate which of the top six hazards (identified on pages 79-81 in the ADECA Public Action Plan) that pose the greatest threat to lives and property in the disaster-impacted counties will be addressed

This project:

☐ Is a Recovery Project

☐ Is a Mitigation Project

☒ Meets definition of both Recovery and Mitigation

through the proposed activity, as well as a description of how the project will increase resilience to this type of hazard(s).

Please see Appendix B for instructions on where to find information from the Unmet Needs Assessment and Mitigation Needs Assessment to help inform this response.

Hurricanes Sally and Zeta exacerbated the need for accessible and clear roadways north to south within the center of Baldwin County, both by damaging existing north-south routes and by exposing the need for increased capacity on evacuation routes. The proposed use of Community Development Block Grant – Disaster Recovery (CDBG-DR) funds, awarded by ADECA, is to construct roadways and connections to County Road 65, from CR-28 to CR-32 and CR-34 (Hoffman Road) to CR-36. The roadway will serve the communities within central Baldwin County in two ways. First by restoring roadway capacity lost due to storm damage, such as the damage to Highway 59. Second, the roadway will ensure stable access to evacuation routes, supplementing current local roads that in some instances are unpaved and can become impassable during storm events. This will also mitigate potential loss of life by providing a direct access route to the area, allowing for increased coordination, information, and supply disbursement during disasters.

The County has determined that the eligible activity is public facilities and infrastructure improvements at 24 CFR 570.201(c) for site preparation and construction of the road, which will be utilized as an evacuation route for the surrounding communities and increase infrastructure and access to the area in future disasters. This project will utilize both Disaster Recovery (DR) and Mitigation (MIT) set-aside funds. Tieback to the disaster for this project comes from adjacent North-South roads being damaged and impassable during Hurricane Sally. This project will improve resiliency of the North-South evacuation routes.

Baldwin County experiences severe storms, hurricanes and storm surges, 100-year flooding, and coastal flooding. The communities closest to the Gulf coast are most susceptible to these hazards, but access roads to move north and out of hazard impacts are limited to Highway 59 and the Foley Beach Express. Communities to the west of 59 rely on local access roads to move through the area, and none provide a direct north/south route. This extends travel time through this portion of the County, and increases time needed for evacuation and for emergency resources to residents.

To satisfy the mitigation requirements, the County's goal is to address the following conditions:

- Increase community disaster preparedness by providing increased transit access through the County and for residents to evacuate from storm paths.
- Reduce loss of life and/or injury through increased access for emergency services and government operations.
- Improved recovery efforts by greater ability to access impacted areas and address local needs.

In addition to the narrative above, subrecipients **must attach the following** to the form:

For Projects/Program that Meet a Recovery Need:

☐ Documentation of loss from the hurricane(s), including damage or rebuilding estimates, insurance loss reports, images, or similar information that documents damage caused by the disaster. Sufficient documentation for non-physical disaster-related impacts must clearly show how the activity addresses the disaster impact. For example, documentation for economic revitalization activities may include data about job loss or business closings after the disaster, or data showing how pre-disaster economic stressors were aggravated by the disaster.

X N/A- The project meets the definition of a mitigation project and is explained above.

2f. Alignment with the Local Recovery Plan and other Plans and Efforts

A prerequisite for receiving implementation funding is the completion of a local recovery plan via ADECA's Local Recovery Planning Program, which will detail recovery and mitigation strategies and priorities of each eligible subrecipient.

Describe how your project/program aligns with a recovery or mitigation strategy(ies) identified in your entity's ADECA-accepted **Local Recovery Plan**. In your narrative below, refer to the specific page(s) in the Plan that describes the strategy this project will address, in addition to explaining what priority level the proposed project is (i.e., the project addresses the highest stated priority or need from the Plan, a secondary priority or need, and so on).

- **Serving Low-to-Moderate Income (LMI) populations (pg. 96):** The planned roadway segments are located within an LMI area. The community that will primarily be served by this roadway has an LMI population exceeding 51 percent. (High priority)
- **Serving MID Recovery Zone (pp. 91-92):** This project will be conducted within Census Tracts that were identified as Tier 1 priority areas as they meet at least two criteria, where households are 51% LMI, have a high rate of FEMA IA applications, and/or have a CDC Social Vulnerability Index in the 50th percentile or greater. (High priority)
- **County projects which can reasonably address the infrastructure recovery needs of the County (pg 112):** This project is located within unincorporated areas of the county and so falls within the purview of the Baldwin County Commission. This will address an infrastructure need for a large portion of Baldwin County, creating significant improvements to the residents within the expected service area. (High priority)

Other than the **Local Recovery Plan**, does this project/program align with other planned federal, state, local or tribal development efforts or mitigation plans? If yes, please identify the specific plan(s) or effort this project/program aligns with and provide a summary of how the project/program addresses it.

- This project aligns with the *Baldwin County Commission Strategic Plan*, Growth & Infrastructure Balance element. The *Strategic Plan* describes the Baldwin County Commission's intent to enhance the local travel infrastructure by designing and providing an efficient network of roads. Consistent with this goal, the County Road 65 corridor project will reduce transportation demand on existing arterial roads providing improved travel safety for county residents.
- Traffic study

X If your project/program aligns with other development efforts and plans as identified above, you **must attach** the pertinent document (or excerpt from the document if it is too large) or other evidence that supports your claim.

☐ N/A- The proposed project/program does not align with any known development efforts or plans outside of the Local Recovery Plan.

2g. Incorporation of Design Strategies and Elements

If your project/program is an infrastructure activity, describe how your project/program incorporates the following design aspects:

- How will mitigation measures and strategies to reduce natural hazard risks, including climate-related risks, be incorporated into project/program design? (*Note this is a grant requirement*)

for all infrastructure activities, not just those that meet HUD's definition of a mitigation activity.)

- How will federal elevation and accessibility standards be incorporated into the design of building projects/programs? (Note in the absence of locally adopted and enforced building codes, the requirements of the Alabama State Building Code will apply.)
- How will adaptable and reliable technologies be employed to prevent premature obsolescence?
- What, if any, are the expected long-term risks to the project/program the subrecipient or collaborator may encounter?

See Appendix C for clarifications on infrastructure activities, elevation standards, and accessibility standards. If your proposed project/program is not an infrastructure activity, enter N/A below.

- The site is flat, cultivated, farmland with some natural wetlands and drainage basins throughout. The proposed roadbed varies 1' +/- to 5' +/- in elevation above the existing ground grade. There are currently no existing drainage structures within the project limits that are adjacent to CR-34 and CR-36. As a result of the drainage analysis performed, one new four (4) barrel 8'x4' concrete culvert will be required. Ditches along both sides of County Road 65 will have 4:1 front slopes and 3:1 back slopes (where possible) and be graded to deposit water at the new concrete culvert within the project limits. Water will be directed offsite to the west via natural or proposed drainage outfalls.
- Threatened & Endangered Species & Jurisdictional Waters - Baldwin County has identified a screening-level analysis of the known threatened and endangered species within the project area. There are no critical habitats present in the project area. Baldwin County will conduct surveys to determine potential impacts to federal threatened and/or endangered species. Baldwin County will conduct stream and wetland delineations, where applicable, to determine potential impacts in the project area.
- Farmland Protections Policy & Soils - Baldwin County will conduct a screening-level farmland analysis to determine potential impacts to active farmland and protected farmland soils. If necessary, Baldwin County will complete a Farmland Conversion Form and submit to U.S. Dept. of Agriculture's Natural Resources Conservation Service.
- Utility Coordination - Baldwin County practices cross-departmental collaboration and has partnered with Uniti Fiber to leverage right-of-way in the project area to deploy broadband and fiber. Uniti has confirmed that it can provide internet, ethernet, VOIP, and other services as part of the project, with multiple options for speeds. Additional electric, water, and sewer utilities will be identified for necessary relocation and replacement.
- Permitting & Approvals - Baldwin County will conduct early and frequent coordination with federal and state agencies as part of the NEPA Process. Baldwin County is familiar with the federal funding process and the necessary requirements to deliver a successful project.
- ROW Acquisition - Project will be constructed within existing right-of-way to the extent possible. Where applicable, new right-of-way requirements are limited to either undeveloped or portions of undeveloped properties.
- Title VI and Environmental Justice Populations - Project will be constructed adjacent to known low-income, Environmental Justice, and/or indigenous populations. Minimization of impacts to these populations will be a priority throughout final design. If necessary, a Public Involvement Plan will be developed to ensure that no person, on the grounds of race, color, national origin, sex, age, or disability, be subjected to discrimination under any programs, activities, or services.
- Public and Stakeholder Input - Multiple stakeholders and project partners have been identified in anticipation for the project. Early public engagement and outreach will be conducted to ensure full and fair participation of all potentially affected communities in the decision-making process. Any potential community impact that may arise before, during, or after construction will be mitigated through continuous communication with the community. Public notices will be published concerning opportunities for public engagement and outreach for the proposed corridor project.

- Noise and Air Analysis - If necessary, conduct a Traffic Noise Analysis, prepared in accordance with 23 CFR 772, to determine all noise-sensitive land uses. If necessary, conduct a qualitative Air Quality Analysis to determine any toxic air emissions and analyze Mobile Source Air Toxics.

Will the project/program address the construction or rehabilitation of a disaster-related system or other community-based mitigation system? If yes, please explain below. If not, enter N/A.

See Appendix C for clarification on disaster-related systems and community-based mitigation systems.

- Improving transportation connectivity of the area by providing an additional route
- Improving safety of motorist by providing a safe driving surface
- Providing an alternate route to State Route 59 for general traffic flow as well as high traffic times such as hurricane evacuations
- Provide greater resiliency of the transportation system through additional roadway capacity

2h. Acquisition and Relocation Considerations

How many parcels of land or pieces of property will be needed for the implementation of this project/program, if any?

#

5

What is the site control status of the proposed project/program site(s)?

- ☐ Site(s) are already owned/controlled by the subrecipient
- ☐ Site(s) are not owned/controlled by the subrecipient, but are currently under contract
- ☒ Site(s) will need to complete an acquisition process as part of the project scope

Will this project/program require, or result in, the displacement and/or relocation of residential or commercial occupants?

☐ Yes

☒ No

☐ If you indicated that you already have site control or have the project/program site under contract, you **must attach** the pertinent document (or excerpt from the document if it is too large) or other evidence that supports your claim. *[For pending acquisitions, include copies of executed purchase contracts, maps, legal descriptions, etc. (if documents exist)]*

2i. Studies or Analyses to Support the Activity

Is the project/program supported by a feasibility study, market analysis, relevant technical or economic study, or similar third-party analysis/study/document?

☒ Yes

☐ No

If so, please provide below a summary of each and explain how the proposed project/program is supported.

Attached Studies prepared by Sain Associates:

- Operational and Safety Analysis CR 65 from CR 10 to CR 28
- Operational and Safety Analysis CR 65 from CR 24 to CR 36

☒ **Attach** the feasibility study, market study, or other relevant technical or economic study referenced above that provides support for the viability of the project/program.

2j. Status of Existing Project/Program Development

How would you best categorize the current stage of project development for this proposed activity?

Provide a description of the current status below.

☐ Projects/programs that are ready, or nearly ready to implement. For construction-type projects, this means that the project is "Shovel Ready" and that A&E and project design, environmental review, and all other work needed to begin the project is substantially completed. For projects servicing the public, this can mean that the necessary partnerships are in place to provide said service.

X Applicable planning, A&E, plans, designs, and needed reviews have already commenced but have yet to be completed.

☐ Project/program is in early planning stages and still needs substantial A&E, design work, and other applicable planning work.

Project Criteria:

- Right-of-way acquisition – in progress, est. completed 2026
- Preliminary Design – in progress, est. completed 2026
- Environmental/Permitting – Environmental Review Complete / Permitting in progress, est. completed 2026
- Construction Start – Spring 2026

2k. Actions Already Performed

Have any of the following actions occurred prior to, or are still occurring on, the date of this Activity Profile Form submission?

- Acquisition of the land/properties needed for the project;
- Execution of a contract with a contractor;
- Demolition, land breaking, or moving on the project site;
- Rehabilitation, conversion, repair, or construction work at the project site;
- Transfer, removal, or lease of any property necessary for the project;
- Entering a contract that obligates the applicant to any of the above activities, or;
- Making announcements or commitments that give the impression that the project will definitely go forward in a certain way before the environmental review is completed can influence the outcome of that review.

☐ Yes

X No

If so, please describe those actions in detail below, including the date(s) which they occurred, the extent of work performed, current status, etc.

Acquisition of the land/properties includes 5 tracts total. Acquisition in progress with completion expected within nine months.

2l. Ongoing Operations and Maintenance

Describe how the ongoing operations and maintenance of this project/program will be managed. Who will be responsible, and how will the ongoing O&M be funded? Will the O&M for this project/program be funded by existing funding streams, or is O&M funding dependent on budgetary adjustments, special approvals, program income, etc.?

☒ O&M to be funded by existing funding streams.

☐ O&M funding not yet identified, requires budget adjustments, special approvals, relies on program income, etc.

Provide an explanation below.

Ongoing O & M for the CR 65 corridor will be provided by the Baldwin County Highway Department using existing and anticipated funding through action of the Baldwin County Commission.

3. National Objective

This section will be used by ADECA to determine whether the proposed activity will meet the national objective of the CDBG-DR program. The Action Plan allows for use of each of the three national objectives – benefit low- to moderate-income persons (LMI), aid in the prevention or elimination of slums or blight (Slum and Blight) and address an Urgent Need (Urgent Need).

Indicate which HUD National Objective you are proposing to satisfy with this activity and provide a narrative to explain how the activity will do so. Please refer to the Action Plan, the ADECA Subrecipient Manual, and 24 CFR 570.208 for information about the national objectives.

*****Please Note: The final determination of which national objective will be applied to a project is solely the discretion of ADECA.*****

Select only **ONE** option below:

The project/program will benefit Low to Moderate Income (LMI) Persons:

☒ **LMI Area Benefit:**
An activity, the benefits of which are available to all the residents in a particular area, where at least 51 percent of the residents are low- and moderate-income persons. The area must be primarily residential in character as well.

The project/program will address an Urgent Need (UN):

☐ **Urgent Need:**
Projects/programs that achieve the UN national objective must be able to link to a stated urgent need in the impact and unmet needs assessment in ADECA's Public Action Plan (see pages 47-50 of the HUD-approved Action Plan on the ADECA public website for details related to the state's unmet housing, infrastructure, and economic revitalization need).

Provide a narrative to expand on how the project/program will achieve the selected national objective.

For projects/programs proposing the use of Urgent Need, include details on how the activity responds to the urgency, type, scale, and location of the disaster-related impact as described in ADECA's impact and unmet needs assessment.

The service area for the proposed project meets LMI Area Benefit by providing safe and efficient transportation opportunities to residents of the area, within U.S. Census data, Block Group 1, Census

Tract 110, Baldwin County, Alabama. In this service areas, 51.7% of the residents are low-and moderate-income persons.

4. Project Location and Service Area

This section will be used to identify the service area of the project/program and the number of persons that will benefit from the project.

4a. Project Location

Provide street address(es) and zip code(s) for your project/program. For projects/programs that cover a large, or multiple, areas, provide as many streets, intersections, addresses, zip codes, boundaries, GPS coordinates, etc., as needed to define your project's/program's footprint.

County Rd 65 between County Rd 34 and County Rd 36, Summerdale, AL 36580. This project is located in Township 6 South, Ranges 3 and 4 East, Sections 19, 24, 25, and 30.

Latitude and Longitude coordinates at or near geographical center: 30.496601°N, -87.716955°W

Is the project/program located in, or will it impact the state-recognized tribal reservation areas of either the MOWA Choctaw or Poarch Creek tribes?

Resources:

- Alabama Indian Affairs Commission (<https://aiac.alabama.gov/>)
- MOWA Choctaw (<https://mowachoctawindians.com/>)
- Poarch Creek (<https://pci-nsn.gov/>)

☐ Yes
☒ No

Provide any additional comments to clearly describe the project's location and footprint:

Additional map attached as Figure 1. Project Location, Foley, AL 7.5' USGS Topographic Map
Pictures attached as Photographs 1-10 General Views of Project Areas

Attach the following documents:

- X A map printout of your project/program location (using Google Maps or comparable tool) with markings to delineate the project's/program's physical location and footprint.
X Pictures of the project/program site(s), existing conditions, and proposed work

4b. Project Service Area (for Infrastructure/Economic Development only)

In the space below, explain your project's/program's service area and how you've determined said service area. Provide your justification on why this project/program merits the service area. Describe the geographic area that will benefit from this project/program. Include specific boundaries such as streets, census tracts, or block groups. Be as detailed as possible and explain why this area was chosen as the service area for your project/program.

See Appendix E for service area considerations.

The County Rd 65 corridor project will increase current transportation capacity and improve public safety by providing better lighting, widening of roadway, paving shoulders, and installing new centerlines & shoulder rumble strips. Intersection capacity and safety improvements include a roundabout, additional turn lanes, and access management to limit potential collision points. This

new segment of CR 65 will be constructed to expand roadway capacity and interconnect municipalities including Gulf Shores, Foley, Magnolia Springs, Summerdale, Robertsedale, and unincorporated communities within Baldwin County.

The expansion of CR 65 to connect Gulf Shores, Foley, Magnolia Springs, Summerdale, Robertsedale, and Baldwin County will increase public access to businesses, airports, industrial sites and recreation facilities in the region enhancing both economic growth and quality of life.

CR 65 is a designated hurricane evacuation route for Baldwin County and is critical to quickly and safely evacuating residents and visitors. This project will improve Alabama resiliency by creating additional north-south evacuation routes that interconnects to east-west evacuation routes such as CR 20, SR 98, CR 24 and CR 32. This corridor also provides improved access to the Baldwin County Coliseum, the Mass Care and Medical Needs shelter of Last Resort in this area, as designated by the Baldwin County Emergency Management Agency.

Per the instructions in **Appendix D**, use HUD's interactive LMI Area data mapping tool to identify the selected service area for this project/program.

Indicate the census tract(s) and block group number(s) that make up the project's service area:

Census Tract 110, Baldwin County, Alabama – map attached as Figure 2

X Per the instructions in **Appendix D**, obtain map image(s) for the selected service area. **Attach** the Service Area map image(s) to the application.

What is the total population of your selected service area? **See Appendix E for instructions on calculating this number)**

1780

What is the LMI percentage of your selected service area? **See Appendix E for instructions on calculating this number)**

51.70
%

5. Activity Beneficiaries

This section will be used to inform ADECA of the extent to which the project will help achieve the overall CDBG program goal of benefitting low- and moderate-income persons, while also identifying whether the activity will provide a direct or area-wide benefit to the persons in the service area. The Project Beneficiary Table included on page 50 must be completed as part of this section.

5b. Benefit Type (Infrastructure/Economic Development Activities)

Indicate the type of benefit – **Direct** or **Area** – this project will provide to disaster-impacted persons in the HHMID area(s).

<input type="checkbox"/>	Direct Benefit: Direct benefit activities are distinguished by their benefit to individual households (e.g., a small business owner awarded a recovery loan). Examples of activities that provide direct benefits to disaster-impacted persons would be an economic revitalization project that awards loans directly to small businesses, or a public works project/program that impacts specific persons directly.
X	Area Benefit: Area benefit projects do not provide (direct) benefits to specific persons or households and instead benefit most or all persons in the service area, often <i>indirectly</i> . An example of an activity that would provide an area benefit would be a county-wide drainage improvements project that improves drainage for most or all the residents in a town or county,

or economic assistance to a grocery, pharmacy, or other type of business that provides a service that the entire community uses.

5c. Beneficiary Income Summary

For **Direct Benefit** projects/programs, please complete the table below using a **projection** of the total number of beneficiaries the activity is expected to benefit, as well as the projected income status of those projected beneficiaries (i.e., low-income, moderate-income, and non-LMI). **See Appendix E for instructions on how to determine the applicable income limits for your projections.**

For **Area Benefit** projects/programs, please complete the table below using the income data that was obtained while completing **Question 4b** above.

For instructions regarding how to calculate the number and percentage of low-, moderate-, and non-LMI project beneficiaries, see Appendix E.

Select the appropriate beneficiary type for your project/program (choose one):

For economic development activities, select either businesses (to be assisted), or jobs (to be created)—whichever one is most appropriate for the goals of your proposed project/program).

Other types of activities, such as housing, infrastructure or public facility improvements, public services, or other non-economic development projects/programs, should select “persons”.

☐ Jobs

☐ Businesses

☒ Persons

Enter Total # of Project Beneficiaries:

	Amount	Percent
Total Number Less than or equal to 50% Area Median Income (Low)	525	29.5
Total Number Between 51% and 80% Area Median Income (Mod)	920	51.7
Total Number Over 80% Area Median Income (non LMI)	335	18.8

5d. LMI Area Data Sources

ONLY for projects/programs proposing to meet an LMI Area national objective, please indicate the data source(s) used to complete the tables above (e.g., U.S. Census data, survey data). Enter N/A otherwise.

U.S. Census data, Block Group 1, Census Tract 110, Baldwin County, Alabama.

6. Activity Schedule

This section will be used to determine whether the proposed project/program can likely be completed by the end of the term of ADECA's agreement with HUD and to assist the subrecipient with keeping the activity on a schedule that will allow for timely completion.

6a. Estimated Project Timeframe

Indicate the estimated start and completion dates of this project/program (Month/Year):

Construction Start: Second Quarter 2027

Completed and Operational: Second Quarter 2028

6b. Projected Milestone Schedule

Complete the table below with projected completion dates for various project/program milestones **(as applicable)**. Enter an “X” in the applicable boxes to provide a projection of your project’s/program’s implementation schedule by quarter, with Q1 representing when the project/program is approved by ADECA.

For projects/programs that might have unique activities, please enter those activities in the “Other” rows below.

Activity/Milestone	Q1	Q2	Q3	Q4	Q5	Q6	Q7	Q8	Q9	Q10	Q11	Q12	Q13+
Planning and Studies	X	X											
Environmental Review	X	X	X	X									
Acquisition/ Relocation	X	X	X	X	X	X

7. Financial Aspects

This section will be used to determine the extent to which the subrecipient has been able to leverage other funding sources to cover the project’s/program’s estimated costs, and whether the subrecipient has financially accounted for the entire scope of the project/program.

7a. Project/Program Budget

Provide a breakdown of the proposed project/program budget, including the requested allocation amount and any other sources of funding that are needed to implement the project/program. Attach proof of commitment of funds from each non-CDBG-DR funding source that has awarded funding for the project/program. Support may come in the form of an official letter from the awarding entity (e.g., for private, or other funds), an adopted resolution from a local governing body (e.g., for local funds), or another format acceptable to ADECA.

Funding Source	Amount	Funding Committed?	Proof of Funding Attached
The requested allocation amount	\$4,096,373.00	n/a	n/a
Baldwin County Funds	\$ 474,000.00	X	<input type="checkbox"/>
	\$	<input type="checkbox"/>	<input type="checkbox"/>
	\$	<input type="checkbox"/>	<input type="checkbox"/>
	\$	<input type="checkbox"/>	<input type="checkbox"/>
	\$	<input type="checkbox"/>	<input type="checkbox"/>

TOTAL PROJECT/PROGRAM AMOUNT:	\$		
--------------------------------------	----	--	--

- ☐ Check this box if the allocation is intended to fund the **non-federal match** portion of another federal recovery program (FEMA, Economic Development Administration, etc.)

7b. Source and Uses, Cost Estimate

Indicate how the project/program funding is proposed to be divided by use and indicate the source(s) for each of those uses. Please note that program administration costs (PACs) are not eligible LRPP costs; an estimate of PACs does not need to be added to the table below. Please leave fields blank for non-applicable line items.

Applicable Funding Use	\$ Amount	Funding Source(s) (from 7a above) – if more than one source will fund an activity, identify each source and the amount
Design, Architectural, and Engineering	\$196,000.00	County Funded
Acquisition Costs	\$250,000.00	County Funded
Construction Costs	\$3,846,373.00	CDBG-DR 21-001
Equipment Costs	\$	
Other Activity Delivery Costs (e.g., environmental review not performed by engineer, activity specific staff and contracted services, etc.)	\$250,000.00	CDBG-DR 21-001
Non-Construction Economic Development Provision	\$	
Provision of Public Services	\$	
NEPA Consulting Services	\$28,000.00	County Funded
(Other - Describe)	\$	
(Other - Describe)	\$	
(Other - Describe)	\$	
TOTAL PROJECT/PROGRAM AMOUNT:	\$4,570,373.00	

X All proposed projects/programs that involve construction-related work **must attach** a detailed cost estimate prepared by, or reviewed by, an architect, engineer, or another reputable source from the State of Alabama. The cost estimate shall contain the estimated cost of construction, architectural/engineering fees, and related costs, and break down the total project/program cost by activity—and funding source, if other funds will cover a portion of the project's/program's costs.

☐ Projects/Program's that do not involve construction, like certain public service or economic development activities, do not need an A/E-certified cost estimate, but should still attach a proposed project/program budget that details all pertinent (estimated) costs to plan, design, implement, and close out the project.

See Appendix F for further instructions and an example of a cost estimate document that must be attached to your Activity Profile Form.

7c. Ineligible Uses of Funds

Do you intend to use the CDBG-DR Formula Allocation to fund any of these purposes?

Rehabilitation and reconstruction of single-family dwellings.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
Assisting entities that failed to meet the conditions of obtaining and maintaining flood insurance on prior Federally assisted programs.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
Utilization of a property that was purchased using eminent domain for purposes benefiting a private party. (See allowed uses of eminent domain under Section d. Displacement of Persons and Other Entities of the published Action Plan page 97)	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
Providing compensation to beneficiaries for losses stemming from disaster related impacts.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A
Forced mortgage payoff.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
Buildings or portions thereof used for the general conduct of government as defined in HCDA Section 102(a)(21)	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
Expenses required to carry out the regular responsibilities of the unit of general local government	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
Political activities	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If the project involves enlargement of a dam or levee beyond the original footprint of the structure that existed before the disaster, has pre-approval from HUD and any other Federal agencies HUD deemed necessary been obtained?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A
Assisting a for-profit business in any activities that will result in relocation or significant loss of jobs from one labor market to another	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
Assisting a privately-owned utility for any purpose.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If eminent domain will be employed, will property be for public use? (See allowed uses of eminent domain under Section d. Displacement of Persons and Other Entities of the published Action Plan page 97)	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A

7d. Duplicative Funding

ADECA is required by HUD to conduct an individualized DOB review to ensure that any CDBG-DR allocation is not duplicative of other funding.

A duplication of benefits (DOB) occurs when a beneficiary receives or is awarded assistance from multiple sources for a cumulative amount that exceeds the total need for a particular recovery purpose, and the total assistance received for that purpose is more than the total need for the project/program in question.

X Subrecipients must complete the **Duplication of Benefits addendum** provided at the end of this document and submit it with their project/program profile form. Failure to do so will deem this Activity Profile Form incomplete.

7e. Income Generation

Do you anticipate that this project/program will generate **program income**? (See Section 3.6.8 of the subrecipient Manual for the definition of and examples of program income.) If so, please provide details on those income generation aspects and any projections you may have at this time.

☐ Yes
☒ No

N/A

8. Subrecipient Capacity

This section will be used by ADECA to determine the subrecipient's capacity to implement the proposed project/program in accordance with program and contractual requirements and to assess the compliance risk associated with the project/program.

*****IF THIS PROJECT/PROGRAM INCLUDES A COLLABORATOR(S), THE RESPONSES BELOW SHOULD ADDRESS BOTH THE SUBRECIPIENT AND ANY COLLABORATORS*****

8a. Prior Experience	
Does your entity possess experience implementing similar types of projects/programs as the one proposed? If yes, please list all similar projects the subrecipient/collaborator has implemented within the last 10 years.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<p>The Baldwin County Commission, Baldwin County Highway Department has experience gained through implementation of similar programs and activities using funds allocated by the American Rescue Plan Act (ARPA), State and Local Fiscal Recovery Plan. As of December 31, 2024, over \$11 million in ARPA funds had been allocated by Baldwin County Commission, facilitating the Highway Department's use for multiple roadway and drainage infrastructure improvement projects. Specific similar projects implemented by the subrecipient using ARPA funds include:</p> <ul style="list-style-type: none"> • Sherman Road • County Road 11 (Greeno Road) • County Road 65 between County Road 24 and County Road 28 • Faircloth Road • Main Street • River Road • Surfside Shores • Turberville Lane • Boros Road 	
Does your entity possess experience implementing CDBG or other federally funded projects/programs? If yes, please list all federally funded projects/programs the subrecipient/collaborator has implemented within the last 10 years, as well as the funding source.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<p>Baldwin County received a total of \$43 million in American Rescue Plan Act (ARPA) funding through the State and Local Fiscal Recovery Funds (SLFRF) program. The County's ARPA-funded efforts include substantial drainage and stormwater improvements across multiple jurisdictions, such as the Sherman Road Drainage Improvements at Weeks Creek (\$1.29M), River Road Drainage Improvement (\$2.17M), and Surfside Shores Drainage Improvements (\$2.7M). These projects addressed longstanding flooding concerns, improved watershed stability, and enhanced public safety in vulnerable areas. In addition to stormwater infrastructure, Baldwin County has advanced water system improvements through projects like the Silverhill and Summerdale Water Tower Projects (\$1M each), and the City of Loxley Water System Improvement Project (\$750K). These investments have expanded water storage capacity, improved service reliability, and supported future growth in underserved communities. The County also demonstrated in-house engineering and project management capabilities through efforts like the Boros Road Bowl Project, which included both a water line installation (\$1.04M) and a stormwater pond constructed by County staff (\$111K). This dual-component project showcases Baldwin County's ability to coordinate across departments and</p>	

deliver cost-effective solutions. Collectively, these projects represent over \$15 million in federally funded infrastructure improvements. The County's experience with ARPA-funded projects provides a strong foundation for the successful implementation of proposed CDBG-DR activities.

Baldwin County received substantial FEMA funding to support emergency response, debris removal, and long-term recovery efforts. The most significant allocation was \$21.7 million approved for debris removal operations, reimbursing the County for the collection and disposal of over 1.7 million cubic yards of vegetative debris and 48,000 cubic yards of construction and demolition debris from public roads, rights-of-way, and County property. This work was conducted between September 23 and October 31, 2020, using contracted crews and monitored staging sites, with final disposal routed to four permitted landfill facilities. The County also received \$8 million in Public Assistance (PA) funds, which supported emergency protective measures and infrastructure repairs across multiple categories (C–G), including roads, utilities, public buildings, and parks. Baldwin County was allocated \$14.6 million in Hazard Mitigation Grant Program (HMGP) funding under disaster declaration DR-4563, designated for mitigation projects that reduce future disaster risk. These funds support initiatives such as drainage improvements, elevation of flood-prone structures, acquisition of repetitive loss properties, and hardening of critical infrastructure.

Baldwin County has successfully secured and implemented multiple projects funded through the Gulf of Mexico Energy Security Act (GOMESA), demonstrating a strong commitment to coastal resilience, environmental stewardship, and public access enhancement. Among the most significant awards is the Launch at County Road 6 on the Bon Secour River, a \$4.82 million investment that will create a public boat launch and park featuring ramps, kayak access, fishing piers, gazebos, restrooms, trails, and ample parking—construction is anticipated to begin in early 2024. The County also received \$4 million for the Magnolia River Watershed project, which will transform the Kelly Pit site into a regional detention and constructed wetlands facility to improve water quality and reduce flood risk.

Baldwin County has received several RESTORE Act awards to support coastal restoration, infrastructure resilience, and environmental protection—funded through the Gulf Coast Restoration Trust Fund established after the Deepwater Horizon oil spill. These awards reflect the County's strategic focus on long-term sustainability and community benefit. One of the most notable RESTORE-funded initiatives is the Bon Secour River Headwaters Restoration Project, which aims to improve water quality and restore natural hydrology through wetland enhancement and sediment reduction. This project supports both ecological health and flood mitigation in a vulnerable watershed. The County also received RESTORE funding for the Wolf Bay Watershed Management Plan, a comprehensive effort to guide future development while protecting water quality, habitat, and recreational access.

Baldwin County has received transportation infrastructure funding through the Alabama Department of Transportation (ALDOT) and affiliated entities, supporting both economic development and aviation enhancement. A notable \$5 million grant was awarded to improve access roads surrounding the Novelis aluminum rolling and recycling facility in Bay Minette. This investment included resurfacing and widening Highway 287, drainage improvements, and the construction of a dedicated industrial access road—critical upgrades that support a project projected to generate over 1,000 direct jobs and \$6.5 billion in economic output.

In response to the COVID-19 pandemic, Baldwin County implemented a series of strategic projects under the CARES Act and its successor legislation, aimed at stabilizing households, protecting public health, and maintaining essential services. One of the most impactful initiatives was the Emergency

Rental Assistance Program (ERAP), through which the County distributed \$8 million in federal aid to landlords and tenants affected by pandemic-related income loss.

Please see attachments concerning Baldwin County Commission's implementation of federally funded projects/programs, including the Schedule of Expenditures of Federal Awards (SEFA) for fiscal years 2021 through 2025.

8b. Outstanding Monitoring or Audit Results

Does your entity have any open concerns or findings related to program or project administration, fiscal administration, or grant administration, as a result of a HUD (or federal agency) monitoring review? If yes, please identify the substance of the concern(s) or finding(s) issued, the status, and the entity's efforts to resolve.

☐ Yes

☒ No

N/A

9. Certifications and Assurances

Please review the following certifications and assurances in support of this Activity Profile Form. By signing and submitting this Activity Profile Form, the subrecipient certifies that all of the following are true and correct.

Certifications

1. The information presented in this Activity Profile Form is true and correct to the best of my knowledge.
2. I certify that:
 - a. The City/County will minimize displacement of persons as a result of activities with CDBG funds and will assist persons actually displaced as a result of such activities.
 - b. The City's/County's program will be conducted and administered in conformance with Public Law 88-352 and Public Law 90-284, and the City/County will affirmatively further fair housing.
 - c. The City/County has held a public participation hearing to obtain the views of citizens on community development and housing needs.
 - d. The City/County has furnished citizens information concerning the amount of funds available for proposed community development and housing activities that may be undertaken including the estimated amount of funds proposed to be used for activities benefiting low- and moderate-income persons.
 - e. The City/County has made available to the public a summary of the proposed project to afford affected citizens an opportunity to comment.
 - f. The City/County is providing citizens with reasonable access to records on past use of CDBG funds.
 - g. The City/County will provide citizens with reasonable notice of, and opportunity to comment on, any substantial change proposed to be made in the use of CDBG funds.
 - h. The City/County will not attempt to recover any capital costs of public improvements assisted in whole or in part with CDBG funds by assessing any amount against properties owned and occupied by persons of very low, low- and moderate-income. If a fee or assessment is required, the City/County will use CDBG funds to pay the proportion of such fee or assessment that relates to the capital costs of such public improvements that are financed from revenue sources other than CDBG funds. The City/County through proper certification to the State may assess any amounts against properties owned and occupied by persons of moderate income who are not persons of very low or low income if the City/County lacks sufficient funds received under the CDBG program to pay those costs.
 - i. The City/County is ☐ is not ☒ (please check one) delinquent on any State/Federal debt (If answered "is", attach explanation).
3. I further certify that the City/County is following a detailed Citizen Participation Plan which:
 - a. Provides for and encourages citizen participation, with particular emphasis on participation by persons of low- and moderate-income who are residents of slum and blight areas and of areas in which Section 106 funds are proposed to be used, and in the case of a grantee described in Section 106(a), provides for participation of residents in low- and moderate-income neighborhoods as defined by the local jurisdiction;

- b. Provides citizens with reasonable and timely access to local meetings, information, and records relating to the grantee's proposed use of funds, as required by regulations of the Secretary, and relating to the actual use of funds under this title;
- c. Provides for technical assistance to groups representative of persons of low- and moderate-income that request such assistance in developing proposals with the level and type of assistance to be determined by the grantee;
- d. Provides for public hearings to obtain citizen views and to respond to proposals and questions at all stages of the community development program, including at least the development of needs, the review of proposed activities and review of program performance, which hearings shall be held after adequate notice, at times and locations convenient to potential or actual beneficiaries, and with accommodation for the handicapped;
- e. Provides for a timely written answer to written complaints and grievances, within 15 working days where practicable; and
- f. Provides citizens with reasonable advance notice of, and opportunity to comment on, proposed activities not previously described in the community development application, and for activities which are proposed to be deleted or substantially changed in terms of purpose, scope, location, or beneficiaries.

Assurances

As the duly authorized representative of the subrecipient entity, I certify that the subrecipient:

- 1. Has the legal authority to apply for Federal assistance, and the institutional, managerial, and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of the project described in this Activity Profile Form.
- 2. Will give the awarding agency, the Comptroller General of the United States, and the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the assistance; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
- 3. Will not dispose of, modify the use of, or change the terms of the real property title, or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the Federal interest in the title of real property in accordance with awarding agency directives and will include a covenant in the title of real property in whole or in part with Federal assistance funds to assure nondiscrimination during the useful life of the project.
- 4. Will comply with the requirements of the assistance awarding agency with regard to the drafting, review, and approval of construction plans and specifications.
- 5. Will provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progress reports and such other information as may be required by the assistance awarding agency or State.
- 6. Will initiate and complete the work within the applicable time frame after receipt of approval by the awarding agency.

7. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
8. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. 4728-4763) relating the prescribed standards for merit systems for programs funded under one of the nineteen statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
9. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. 4801 et seq.) which prohibits the use of lead-based paint in the construction or rehabilitation of residential structures.
10. Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Section 109 of the Housing and Community Development Act of 1974 (HCDA), as amended, 42 U.S.C. § 5309, which prohibits discrimination on the basis of race, color, national origin, sex, and religion in any program or activity funded in whole or in part under Title I of the Community Development Act of 1974, which includes Community Development Block Grants; (b) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color, or national origin; (c) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. 1681-1683, and 1685-1686) which prohibits discrimination on the basis of sex; (d) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794) which prohibits discrimination on the basis of disability; (e) the Americans with Disabilities Act of 1990 (ADA), as amended, 42 U.S.C. § 12101 et seq. Title II of the ADA, which prohibits discrimination based on disability in programs and activities provided or made available by public entities; (f) the Architectural Barriers Act of 1968, 42 U.S.C. § 4151 et seq., which requires that buildings and facilities designed, constructed, altered, or leased with certain federal funds after September 1969 to be accessible to and useable by persons with disabilities; (g) the Age Discrimination Act of 1975, as amended (42 U.S.C. 6101-6107) which prohibits discrimination on the basis of age; (h) the Drug Abuse Office and Treatment Act of 1972 (P.L. 93-255), as amended, relating to nondiscrimination on the basis of drug abuse; (i) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (j) 523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. 290 dd-3 and 290 ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (k) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. 3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (l) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and (m) the requirements of any other nondiscrimination Statute(s) which may apply to the Activity Profile Form.
11. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646), as amended (P.L. 100-17) which provides for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal and federally assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.

12. Will comply with the provisions of the Hatch Act (5 U.S.C. 1501-1508 and 7324-7328) which limit the potential activities of employees whose principal employment activities are funded in whole or in part with Federal funds.
13. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. 276a to 276a-7), The Copeland Act (40 U.S.C. 276c and 18 U.S.C. 874), Section 3 provisions from the HUD Act of 1968 (12 U.S.C. 1701u), and the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-333) regarding labor and employment standards for federally assisted construction contracts.
14. Will comply with the flood insurance purchase requirements of Section 102 (a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is \$10,000 or more.
15. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (c) notification of violating facilities pursuant to EO 11738; (d) protection of wetlands pursuant to EO 11990; (e) evaluation of flood hazards in flood plains in accordance with EO 11988; (f) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.); (g) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended, (42 U.S.C. 7401 et seq.); (h) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended, (P.L. 93-523); and (i) protection of endangered species under the Endangered Species Act of 1973, as amended, (P.L. 93-205).
16. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. 1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.
17. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. 470), EO 11593 (identification and preservation of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. 469a-1 et seq.)
18. Will cause to be performed the required financial and compliance audits in accordance with Single Audit Act of 1984, as amended, and OMB Circular A-128.
19. Will comply with all applicable requirements of all other Federal laws, Executive Orders, regulations, and policies governing this program.

Special State Assurances

The subrecipient further assures and certifies that:

1. The proposed program/project benefits principally persons of low to moderate incomes, the latter being defined as persons in households having incomes at or below applicable income limits. Specifically, the following percentages of low- and moderate-income beneficiaries serve as a minimum threshold depending on the type of project: 51 percent for public facilities activities and 100 percent for housing activities. Programs/projects should be designed so as to give maximum feasible priority to activities which will benefit low- and moderate-income

families or aid in the prevention of slums and blight. However, a proposed program/project may include activities which the grantee certifies are designed to meet other community development needs having a particular urgency because existing conditions pose a serious threat to the health or welfare of the community where other financial resources are not available to meet such needs.

2. If it has a previous Community Development Block Grant Program which has not been closed out, it will, if requested by the State, present the State with documentation to adequately demonstrate that it can expeditiously close out the previous program and manage a future program.
3. The local governing body accepts the responsibility for citizen comments and concerns related to the proposed program/project.

Anti-Displacement Assurance

As the duly authorized representative of the subrecipient entity, I certify that the subrecipient will comply with:

1. Section 104(d) of Title I of the Housing and Community Development Act of 1974, as amended. This provision, authorized by Section 509(a) of the Housing and Community Development Act of 1987, contains requirements for a residential anti-displacement and relocation assistance plan. Each State recipient must adopt, make public, and certify to the State that it is following "a "residential anti-displacement and relocation assistance plan."
2. Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended through 1987, (Public Law 100-17, 101 Stat. 246-256). This provision extends Uniform Relocation Assistance coverage to any person (family individual, business, nonprofit organization, or farms) displaced as a direct result of rehabilitation, demolition, or privately undertaken acquisition carried out for a federally assisted project or program.

Certification For Contracts, Grants, Loans, And Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan or cooperative agreement, the undersigned shall complete and submit Standard Form-LL", "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

Certification Regarding Survey

If a survey to determine project beneficiaries was undertaken for the proposed project/program, such survey was conducted with full regard to obtaining accurate information. The City/County agrees that any evidence to the contrary could result in adverse consequences, including the repayment of grant funds.

Certification Regarding Excessive Force

In accordance with Section 519 of Public Law 101-140, (the 1990 HUD Appropriations Act), the subrecipient entity certifies that it has adopted and is enforcing a policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in nonviolent civil rights demonstrations.

(END OF CERTIFICATIONS AND ASSURANCES)

10. Activity Profile Form Acknowledgement and Signature

Activity Profile Forms will be evaluated as received, so the completeness of this package is paramount.

Prior to the submission of this Activity Profile Form, please take time to ensure the following are addressed:

- ✗ All applicable checkboxes and fields have a response, even if that response is N/A.
- ✗ All required attachments are submitted with this Activity Profile Form document, such as:
 - Project/program footprint map
 - Photos
 - Service area map
 - Project/program cost estimate
 - Duplication of Benefits Addendum and applicable support
 - Any additional pages needed to support a response
- ✗ Any other applicable attachments, such as:
 - Interlocal Agreement/ Memorandum of Understanding
 - Documentation of disaster impacts and losses
 - Feasibility, market, or other technical or economic study
 - Proof of commitment of non-CDBG funds

Signature of Chief Elected Officer

I hereby certify that the information provided in this disclosure is true and correct and I am aware that making any materially false, fictitious, or fraudulent statement or representation may subject me to criminal penalties under Section 1001 of Title 18 of the United States Code. In addition, I am aware that if I materially violate any required disclosure of information, including concealing a material fact, I am subject to being fined under this title or imprisoned not more than five years, or both.
