Attn: Terri L. Graham

Dear Terri,

Thank you for the opportunity to provide an addendum to the Baldwin County Commission's future recyclables processing system that includes optional upgrades to the current system design. As discussed in previous system design reviews, Green Machine is adding the bounce-belt separator system free-of-charge to the Baldwin County Commission which will increase fiber recovery before the container-sort line, as well as enhancing pick rates and cleanliness on the container processing line. Green Machine will also increase the loading zone lower horizontal of the C1 continuous system feed/pre-sort conveyor free-of-charge. The following options that will be priced out and offered to the Baldwin County Commission include a fiber re-run system and container push-through bunkers that will accommodate the Commission's loader clear height requirements. Our addendum specifications are as follows:
