Re: Change Order Request
Project No. BCR-2025-2
2025 Group 2 Resurfacing

To whom it may concern:

We request that the attached change order in the amount of \$100,687.00 be approved for the subject project and Contractor, Ammons & Blackmon Construction, LLC. During Construction, it was determined that milling is needed within Plantation Hills subdivision to maintain proper transitions from the roadway to the adjacent valley gutter. This change order will address that need and ensure a smooth transition.

Further, the value of this change order is increased due to Baldwin County requesting to take possession of the milled asphalt produced from this operation. Baldwin County is in significant need of millings for roadway maintenance. As such, the Contractor will be hauling the millings to the Area 200 Barn for stockpile and use by Baldwin County maintenance forces. Baldwin County Highway Department finds the value of the change order to be reasonable and requests that it be approved.

Sincerely,

Mark Acreman, P.E.
Assistant County Engineer
