

Production Name

Beachcombers LLC

Name of the Movie/Show

Beachcombers

Description of the Movie/Show

A down-on-his-luck drifter comes into an unexpected fortune in the backwaters of coastal Alabama in the 1990's.

Exact Dates/Times you're requesting use of County Property.

July 1st from noon until 11:30pm. We will probably need less time than is listed, I am just putting a wide window to be cautious

Outline of what the crew/actors will be doing on County property

*Sequence one – short scene at the boat launch. The characters dock a small motor boat
Sequence two – we will bring in and place a vintage coke machine and film a small scene by it.*

Are you asking for anything additional other than using the park? (i.e.: Sheriff's Deputies on site, road closures)

No

What streaming service/ tv channel will this be aired on?

TBD – We will likely show the movie at film festivals (such as Sundance or the Sidewalk Film Festival in Birmingham, and hope to secure a deal with a distributor like Netflix or A24. Hopefully it's a big hit, plays in theaters around the world, and then goes to a streaming service.

What kind of series/show is this?

Beachcombers is an independent narrative fiction comedy / adventure.

What are the goals and objectives of the show?

The writer/directors of BEACHCOMBERS are Clay Tatum and Whitmer Thomas – two Gulf Shores natives who now live in LA. This is their second feature film. Their goal is to make compelling regional cinema that shows coastal Alabama on a world stage.

We will need to know what filming on the property entails in more detail

We will have about 3 personal vehicles, and one truck to bring in the Coke machine and boat. A small crew of 12 and a cast of 3.

Will there be any equipment brought in? This includes needs for electrical.

All equipment will be hand held, nothing will require major power pull. The coke machine may need to be plugged in.

Please provide a copy of Liability Insurance

Our insurance policy starts the week of 6/15 – we will provide a COI the moment it's ready. The policy will comport to your standards.
