**RE: Alabama Department of Environmental (ADEM) Coastal Program –
Resubmittal for Delegation**

Dear Mr. Hughes,

Pursuant to ADEM Admin. Code. 335-8-1-12 (7[a]), the Baldwin County Commission (county) has prepared this resubmittal of its Local Program Delegation, previously approved in October 7, 2014. ADEM Admin Code R. 335-8-2-08, *Construction and Other Activities on Gulf Front Beaches and Dunes* is specific ASDEM regulation for which this resubmittal is forwarded.

Included in this resubmittal are a copy of the relevant existing County codes and a description of the County's permitting procedures for those uses subject to *Construction and Other Activities on Gulf Front Beaches and Dunes*. Through interagency coordination between the County and ADEM which began in August 2019, the County believes the attached package meets the requirements of ADEM Admin Code R. 335-8-1-.12 (2), as the relevant County codes remain as originally authorized – no modifications are proposed.

The Baldwin County Commission fully support this resubmittal of ADEM Admin. Code 335-8-2-.08, as evidenced by the adoption of Resolution No. 2015-011 (Attachment). We are encouraged by the positive working relationship that has been fostered between the County and ADEM staff and official, and look forward to working with ADEM to further protect our valuable coastal resources.

Sincerely,

BILLIE JO UNDERWOOD, Chairman
Baldwin County Commission
