1.) Is the requested change compatible with the existing development pattern and the zoning of nearby properties?

The subject property is currently zoned RA, Rural Agriculture District, and is undeveloped. The adjacent properties are zoned B3, General Business District, RA, Rural Agriculture, RMF-6, Multiple Family District, and RSF-2, Single Family District. The adjacent uses are commercial, residential, and agriculture.

2.) Has there been a change in the conditions upon which the original zoning designation was based? Have land uses or conditions changed since the zoning was established?

Planning District 12 zoning map was adopted in November 2006. There have been few rezonings in the area. Most of these rezonings were to a higher density residential along Thompson Road and commercial along Hwy 59.

3.) Does the proposed zoning better conform to the Master Plan?

A future land use designation of Agricultural has been provided for the subject property. This category is provided for agriculture, forestry and similar activities. Single family dwellings, institutional uses, recreational uses, limited commercial uses which are intended to serve a rural area and transportation, communication and utility uses are also included subject to the requirements found within the Zoning Ordinance. This category is designed to protect the essential open character of rural areas until it is timely to reclassify the land to appropriate residential, commercial or industrial categories. Zoning designations may include RR, CR, RA and RSF-E.

Approval of the rezoning will result in an amendment of the Future Land Use Map to residential. The residential category is provided for residential dwelling units including single family dwellings, two family (duplex) dwellings, multiple family dwellings, manufactured homes, manufactured housing parks and Planned Residential Developments. To the greatest extent possible, residential areas should be accessible to major thoroughfares connecting with work areas, shopping areas and recreational areas. Zoning designations may include RR, RA, CR, RSF-E, RSF-1, RSF-2, RSF-3, RSF-4, RSF-6, RTF-4, RTF-6, RMF-6, RMH and PRD.

4.) Will the proposed change conflict with existing or planned public improvements? Staff is unaware of any planned public improvements.

5.) Will the proposed change adversely affect traffic patterns or congestion?

Per the Federal Highway Administration, the functional classification of Thompson Rd is major collector. They are not intended for to connect local roads and streets with arterials. Collectors provide less mobility than arterials at lower speeds and for shorter distances. They balance mobility with land access.

Comments from the Highway Department (also in agency comments):

The site will require a traffic study at the time of preliminary plat technical review. Site entrances and the intersection will need to be analyzed in the study. Anticipated turn lanes will be needed to mitigate the additional peak hours traffic and additional queuing from the subdivision. Pedestrian traffic will also need to be considered on site for the proximity of the school.

6.) Is the proposed amendment consistent with the development patterns in the area and appropriate for orderly development of the community? The cost of land or other economic considerations pertaining to the applicant shall not be a consideration in reviewing the request.

The surrounding land uses are commercial, residential, and agriculture. Most of the development along Thompson Road is low to medium density residential. The most recent development in the area is Cottages of Aventura, Phase III, zoned RSF-4.

7.) Is the proposed amendment the logical expansion of adjacent zoning districts?

The surrounding land uses are commercial, residential, and agriculture. The zoning in the immediate area encompasses RA, RSF-E, RSF-1, RSF-2, RSF-3, RSF-4, MHP, RMF-6, and B3. The applicant is requesting a higher density single family residential zoning which would be a good transition from the higher density multi-family, mobile home, and commercial districts to a lower single family districts.

- 8.) Is the timing of the request appropriate given the development trends in the area? Staff believes that timing is not an issue.
- 9.) Will the proposed change adversely impact the environmental conditions of the vicinity or the historic resources of the County?

Staff is unaware of any environmental conditions or historic resources that would be adversely impacted by this request. The Alabama Department of Environmental Management (ADEM) provided no comments.

10.) Will the proposed change adversely affect the health, safety and welfare of the County and the vicinity?

Staff anticipates no adverse impacts. Access to this site would require approval from the Baldwin County Highway Department.

11.) Other matters which may be appropriate.

Baldwin County Subdivision— Mary Booth:

- a. Applicant will need to submit a sketch plan application via Citizenserve Portal, to be followed up by a pre-app meeting and will need to comply with current subdivision regulations and zoning ordinance when submitting subdivision applications.
- b. Concur with Hwy comments.

Agency Comments

Baldwin County Highway Department – Weesie Jeffords:

- a. Thompson Rd is County Maintained where the concept plan proposes to connect. This portion of road is classified as a major collector.
- b. The layout of the proposed concept does not meet Subdivision Regulation requirements and will need to be revised. The proposed road shown from lots 1-5 and 63-67would be required to have a permanent turnaround (cul-de-sac).
- c. CBU would be required to have off right-of-way parking.
- d. It appears there will be a wetland crossing that will need to be permitted through USACE for potential impacts (pending jurisdictional determination and wetland study). A gated emergency access may be required at the time of subdividing for proposed lots 18-39 in an extreme upset event that the shown wetland crossing is impassable.
- e. Detention shall be reviewed at preliminary plat technical review. Curve numbers for the field should utilize vegetated pasture assumption for the field areas for pre-development conditions and appropriate wooded/wetland for the wetland areas. The site shall not restrict flow onto and will need to account for waters passing through from upstream.
- f. The site will require a traffic study at the time of preliminary plat technical review. Site entrances and the intersection will need to be analyzed in the study. Anticipated turn lanes will be needed to mitigate the additional peak hours traffic and additional queuing from the subdivision. Pedestrian traffic will also need to be considered on site for the proximity of the school.

7.D) Z22- 8 VASUT PROPERTY

Staff's Summary and Comments:

As stated previously, the subject property is currently zoned RA, Rural Agriculture District, and is currently vacant. The property adjoins Thompson Rd and Hwy 59. The adjoining properties are commercial, residential, and agriculture. The requested zoning designation is RSF-4, Single Family District. According to the submitted information, the purpose of this request is to allow for a future subdivision. If the property is rezoned, the proposed uses will require subdivision approval.
