

December 6, 2022  
Baldwin County

Attention: Ms. Christal Watson  
Reference: Building Awning

Ms. Watson,

Byrd Construction Services, Inc., is pleased to submit pricing for supply and installation of new sidewalk cover. Approximate dimensions will be 42'x6.5'. Height to be approximately 10 feet (existing eave height). Pricing below is to construct a free-standing walkway cover, since there is no building steel available for supporting connections at the desired elevation. Awning cover will have (8) 4" posts anchored to new concrete piers. Each pier will finish about 1" above grade, and the base will be an approximate 14" diameter below grade, with the required anchors and reinforcing steel. One row of four posts/piers will be against the building, the other row will be approximately 6' away from the building.

If permitting, or a county design review is required for county structures, permit costs and other requirements will have to be added to a revised quote.

**Pricing for one (1) walkway cover. Double the pricing for two locations**

Supplied Material	\$16,126
Installation Labor	\$13,224
Boom Truck	\$2,821
Total	\$32,171

**Clarifications**

- Posts and foundations will be constructed to loads associated with 120MPH wind. Public review/approval of the design is not included at this time. This review may be necessary.
- Material pricing in effect for 14 days. Price can be adjusted at time of order according to prevailing rates and material availability.
- Manlift and scissor lift are included as required to complete installation.
- Above prices do not include any sales or use tax that may apply on this project.
- Our terms are 1.5% 10, Net 30 days from date of invoice

Thank you for the opportunity to work with you on this project. If you have any questions or if we can be of further assistance please call.

Sincerely,

Glen M. Jones
