SCOPE OF SERVICES

This Scope of Services is applicable to the collection, management, disposal, and/or beneficial re-use of discarded scrap tires and/or scrap tire materials funded by the Alabama Scrap Tire Fund. The associated contractual agreement shall reimburse expenses associated with the services described below of up to **\$150,000** for the duration of the contract or until the contract is otherwise terminated.

The Baldwin County Commission shall furnish all necessary labor, supervision, equipment, tools, materials, supplies, and any other items or activities related to providing the following services:

1. The collection of discarded scrap tires and/or scrap tire materials from County right-of-way (ROW) locations:
 - To be eligible for reimbursement under this scope of services, the above referenced locations (sites) cannot qualify as scrap tire sites (STS) and/or unauthorized solid waste dumps (UAD) as defined in ADEM Division 4 and 13 regulations (i.e. if the site contains more than 100 scrap tires and/or more than 5 cubic yards of regulated solid waste). If a site does qualify as a STS or UAD, as defined, it is to be referred to the Department for remediation.
 - The discarded scrap tires and/or scrap tire materials shall only be collected from County ROW property or other locations where non-profit organizations (i.e. Adopt-a-Mile, Adopt-a-Stream, PALS, Clean Water Partnerships, etc.) are conducting a cleanup.
 - Subject to Department approval, the above services may be performed by non-profit (non-paid) groups (such as those referenced above) in lieu of the County.
2. The proper management of the collected scrap tires and/or scrap tire materials in an appropriate manner until such time as they are disposed:
 - The County may establish monitored collection center(s) for scrap tires collected from the ROWs within its jurisdiction. Such collection centers will be subject to prior approval by the Department and will be subject to certain requirements and limitations.
3. The proper transport and disposal of the collected scrap tires and/or scrap tire materials to an approved, permitted disposal facility and/or to a Department-approved facility for beneficial re-use.
4. If necessary, conduct site restoration/closure activities to minimize erosion for those areas where soils have been disturbed by heavy machinery.

5. Submit to the Department, no more than once per quarter, a Payment Request and supporting documentation for the collection, management, disposal, and/or beneficial re-use of all collected scrap tires and/or scrap tire materials:
 - The payment request must include, at a minimum, the following: disposal and/or recycle receipts, labor and equipment breakdown and costs, current industry standard equipment rates, scrap tire manifests, end-user agreements, and any documents deemed by the Department to be relevant to the clean-up and disposal of scrap tires and/or scrap tire materials.

The Department reserves the right to withhold reimbursement for any services deemed unrelated to the collection, management, and disposal of discarded scrap tires and/or scrap tire materials such as; overtime or weekend hours, supplementing of county employee salary, unreasonable equipment or employee costs, or any other cost deemed by the Department to be unrelated to the collection and disposal of scrap tires and/or scrap tire materials. The ROW Program was established as a courtesy to help counties offset the costs associated with the removal of scrap tires found along their county right-of-ways. Before submitting a Payment Request, the responsible County personnel should contact the Department with questions regarding acceptable reimbursements.

This agreement shall remain valid from date of execution of the interagency cooperative agreement until September 30, 2021.
