

**BALDWIN COUNTY HIGHWAY DEPARTMENT
CONTRACT FOR APPRAISAL REPORT**

Contract No.: 117
Appraiser: James K. Green, Jr.

THIS CONTRACT, entered into this 1st day of June, 2019, between Baldwin County, hereinafter called the "County," acting by and through the Baldwin County Highway Department, represented by the County Engineer and James K. Green, Jr., of Valbridge Property Advisors, City of Montgomery, State of Alabama. (If Corporation: incorporated in State of Alabama), hereinafter called the "Appraiser", witnesseth that the parties do hereby agree as follows:

1. This contract will terminate three years from its date above written. Work authorized during the term of this contract shall be covered and reimbursable hereunder.
2. The Appraiser and its employees will not be subject to the provisions, nor entitled to the benefits, of the County Merit System law. This contract may be terminated by either party upon five days' written notice. *Exhibit A* and *Exhibit B* are attached hereto and made a part of this agreement.
3. The County neither perceives nor intends, by this Contract, a granting of an exclusive franchise or violation of Art. I, Section 22 of the Alabama Constitution.
4. The Appraiser shall appraise that certain property or properties as shown described by Project Number and Tract Number in subsequent agreements made pursuant to this contract and which will by reference become part of this contract. **The appraisal services may consist of any of the following: (1) the preparation and submission of real property appraisal reports; (2) the preparation and submission of real property appraisal review reports; (3) such miscellaneous reports, estimates, or studies as deemed necessary for required Project and/or Tract right of way acquisitions; and (4) personal appearances as expert witness on behalf of the County for valuation (deposition and/or trial) testimony and authorized pre-trial conferences relative to condemnation proceedings involving any previously submitted report by the Appraiser of the type referred to in items (1), (2) and (3) above. Fees for appraisal reports and appraisal review reports shall be quoted and approved on a per tract basis. Fees for services provided under item (3) above may be approved as appropriate by lump sum estimate, per diem rates, and/or per tract quotes. Expert witness fees provided under item (4) shall be based on current per diem rates approved for the certification classification of the Appraiser.**
5. Appraiser shall make a detailed field inspection and identification of the various items of the property or properties and shall make such investigation and studies as are appropriate and necessary to enable the Appraiser to derive sound conclusions and to prepare the appraisal report to be furnished under this contract. For the purposes of this Contract the term "appraisal" means a written statement independently and impartially prepared by a qualified appraiser setting forth an opinion of defined value of an adequately described property as of a specific date, supported by the presentation and analysis of relevant market information. The Appraiser shall afford the property owner or the owner's representative the opportunity to accompany the Appraiser on this inspection for the purpose of pointing out any items or providing any information, which in the owner's opinion affect(s) value. Upon completion of the inspections, investigations and studies, the Appraiser shall prepare, furnish and deliver to the County an appraisal report or reports in quadruplicate covering said property or properties.
 - A. **FORM REPORTS:** The report or reports shall, in form and substance, conform with the Alabama Department of Transportation's, hereinafter called "ALDOT", Form Appraisal (ROW-FA), **which is the current version of such Form at the time of the completion of the respective report or reports.**
 - B. **NARRATIVE REPORTS:** The report or reports shall, in form and substance, conform to recognized appraisal principles and practice in accordance with existing State law and the real property acquisition appraisal requirements for Federal and federally-assisted programs as described in §24.103(a) of title 49, Code of Federal Regulations, as amended. These requirements are intended to be consistent with the Uniform Standards of Professional Appraisal Practice (USPAP), as amended. Each submitted appraisal report shall contain, as a minimum, the below listed six (6) requirements.
 - 1) An adequate description of the physical characteristics of the property being appraised (and in the case of a partial acquisition, an adequate description of the remaining property), including items identified as personal property (**), a statement of the known and observed encumbrances, if any, title information, location, zoning, present use, an analysis of highest and best use, and at least a 5-year sales history of the property.
 - 2) All relevant and reliable approaches to value consistent with established Federal and federally-assisted program appraisal practices. If the Appraiser uses more than one approach, there shall be an analysis and reconciliation of approaches to value used that is sufficient to support the Appraiser's opinion of value.
 - 3) Color Photographs and a description of comparable sales, including a description of all relevant physical, legal, and economic factors such as parties to the transaction, source and method of financing, and verification by a party involved in the transaction.

4) A statement of the value of the real property to be acquired and, for a partial acquisition, a statement of the value of the damages and benefits, if any, to the remaining real property, where appropriate.

5) The effective date of valuation, date of appraisal, signature, and certification of the Appraiser.

6) A Scope of Work statement which adequately describes what County and the contracted Appraiser each are to do, and what is the mutually expected outcome of the assignment/agreement. The Scope of Work statement will be developed with input from both County and the Appraiser.

() In accordance with the final rule issued on January 4, 2005 (effective 2/3/05) revising title 49 CFR Part 24 [§ 24.103(a) – rule and Appendix A] the Appraiser must now identify items in the appraisal report considered to be “real property” as well as those considered to be “personal property.” Accordingly, for each tract assignment involving structures to be acquired, the Appraiser will be required to coordinate an “on-site” meeting with appropriate County staff personnel in order to accommodate this requirement; unless informed in writing on a per tract basis by County personnel that it has been determined such a required meeting is not necessary. It is the intent of County that the Appraiser will be informed of each required realty vs personalty meeting prior to executing a Work Authorization Order issued by the County Highway Department. **The results of these meetings are to be included in the appraisal report(s) and will serve as guides in this area for the balance of the acquisition process. If needed, legal counsel is to be consulted when there are questions as to the status of a given item.****

In addition, the report or reports shall present adequate factual data to support each rate, percentage, or amount used with a reason for each in sufficient detail to permit an intelligent review of the appraisal report; shall relate a conclusion based on those facts; shall include a certificate completed and signed by the Appraiser; and shall, among other things, include wherever appropriate the utilization of the three customary approaches to market value, i.e., (a) Market Data, including all pertinent comparable sales and in what respect the subject tract is comparable, (b) Income Approach and (c) Cost Approach with depreciation and reproduction studies. Unless otherwise specified in the proposal submitted by the Appraiser, all three approaches to value are required to be submitted. Where the entire tract or parcel is to be acquired by or for the County, the ultimate determination of the Appraiser shall be the reasonable market value of the subject tract as of the time of the completion of the appraisal. Where only a part of the property is to be acquired, the ultimate determination shall be the value of the property immediately before the taking and the value immediately after the taking, giving effect to and setting out as a credit any enhancement to the remaining tract arising out of the construction or itemizing separately any damage to the remainder land or improvements, as the case may be, and in each instance setting out the value of the land and improvements to be acquired. It shall be the responsibility of the County to determine the items that are noncompensable under the existing laws of the State and the Appraiser will omit such items from his report. An appraisal review checklist, which may also serve as a narrative form appraisal report outline guide, is beneficial and may be used.

C. SHORT FORM REPORTS: The appraisal report or reports shall, in form and substance, conform with the “Short Form Appraisal Report” section of ALDOT’s Instructions for Form Appraisal report (ROW-FA-18) which is the current version of the same at the time of the completion of the respective report or reports.

- 6. County shall review all appraisal and specialty reports of real property to be acquired in connection with Federal-Aid programs or projects and establish an amount which it believes to be just compensation for such acquisition before the initiation of negotiations. The Uniform Act, Section 301 and 49 CFR 24.104, as amended require that, a) a qualified reviewing appraiser shall examine all appraisals to assure that they meet applicable appraisal requirements and shall, prior to acceptance, seek necessary corrections or revisions and b) If the reviewing appraiser is unable to approve or recommend approval of an appraisal as an adequate basis for the establishment of just compensation, and it is determined that it is not practical to obtain an additional appraisal, the reviewing appraiser may develop appraisal documentation in accordance with 49 CFR 24.103 to support an approved or recommended value. The purpose is to ensure that a qualified review appraiser determines the estimate of fair market value is reasonably supported by an acceptable appraisal. An appraisal reviewer, as identified by the County Highway Department, will determine whether a report (or reports) contains factual information, proper documentation, appropriately supported conclusions, and is in conformance with applicable laws and regulations.**

The reviewer should examine each appraisal report to determine the following:

- 1) That it has been completed in accordance with the ALDOT’s appraisal specifications and/or applicable agreement with the contracted Appraiser.**
- 2) That it follows accepted appraisal principles and techniques in the valuation of real property in accordance with Alabama law.**
- 3) That it contains or makes reference to the information necessary to explain, substantiate, and thereby document the conclusions and estimate of fair market value indicated in the report.**

- 4) That it includes consideration of compensable items, damages and benefits, if any, and does not include compensation for items that are non-compensable under Alabama law.
- 5) That it contains identification, including ownership, or listing of the buildings, structures, and improvements on the land as well as the fixtures which were considered as part of the real property.
- 6) That it contains an acceptable "Scope of Work" statement.
- 7) That it contains a complete listing of all items and improvements considered as personalty (and whether omitted from value consideration in the report) and an identification of all real property.
- 8) That it contains an estimate of fair market value for the acquisition, and as appropriate in the case of a partial acquisition, an allocation of the estimate of fair market value for the real property and for damages to the remaining property.

The review appraiser is not to substitute his/her judgment for that of the Appraiser, but where the review appraiser finds analytical and/or factual deficiencies, shall request remedial action be taken. The review appraiser should first ask the Appraiser to consider making the required corrections in the appraisal report. Any needed factual data or analytical changes that cannot be handled in this manner will result in the review appraiser, in effect, becoming the Appraiser and the review appraiser assuming the burden of substantiating and documenting the valuation in accordance with recognized appraisal standards for the type report under review. The appraisal report itself should not be changed by the review appraiser.

Upon completion of the review, the review appraiser will provide a written report on the results of his/her review(s), which will include submission of the following required ALDOT forms: 1) Appraisal Review Checklist & Visual Inspection Certificate (Form A-6); 2) Appraisal Review Report/ Summary of Appraisal (Form A-16); 3) a listing of the review appraiser's Special Assumptions and Contingent and Limiting conditions; and 4) a signed and dated certification setting forth the estimate of just compensation and other required statements and conditions of the appraisal review. The review appraiser shall identify each appraisal report as being classified in one of the following three categories:

- 1) Not Accepted (unable to obtain necessary corrections, revisions, or additional data)
- 2) Accepted (meets all requirements, but not selected as recommended or approved)
- 3) Recommended (as basis for establishment of amount believed to be just compensation).

7. The Appraiser, within the specified number of calendar days from the date of the work authorization order, said date being the day on which the County signature is perfected, shall deliver the required number of copies of the completed report(s) to the requesting County personnel. The valuation date shown on the report shall not precede the submission date by more than twenty (20) days.
8. The Appraiser shall not divulge and shall take all reasonable steps to ensure that no staff or organization member divulges any information concerning such appraisal reports to any person other than a duly authorized representative of the County or a person authorized in writing by the County to obtain such information.
9. The Appraiser agrees that for a period of two years following the date of the completion of this report covering said property, the Appraiser and the employees of said Appraiser will not, on their own account, negotiate for the property or perform services for others in connection with the said property unless the written consent of the County Engineer is first obtained.
10. Appraiser agrees that the County or any of the duly authorized representatives shall, until the expiration of three (3) years after final payment under this agreement, have access to and the right to examine any directly pertinent books, documents, papers and records of the Appraiser involving transactions related to this agreement.
11. The Appraiser agrees to indemnify, defend and hold County and its affiliates, employees, agents, and representatives (collectively "County") harmless from and against any and all claims, demands, liabilities, damages, losses, judgments, costs, and expenses including, without limitations, attorneys' fees, for any and all personal injury (including death) and property damage of any kind or nature whatsoever, incurred by, asserted against, or imposed upon County, as a result of or in any manner related to provision of services hereunder, or any act or omission arising from the performance of the work called for by this contract due to activities of the Appraiser, agents of the Appraiser, or employees of the Appraiser. Appraiser shall provide the County with proof of general liability coverage including the County as an additional insured.
12. The Appraiser agrees to comply with all Federal, State and local laws and ordinances applicable to this work. Including, without limitation, those laws listed within **Exhibit "B"**, as if fully set forth herein, to the extent applicable to this Agreement and the services herein required or incidental thereto.
13. The Appraiser agrees to abide by ALDOT'S "Principles of Business Conduct".

14. The Appraiser agrees that no part of this work shall be transferred or sublet to any persons or firms without the expressed approval of the County. Transferring or subletting of work shall consist of the Appraiser utilizing the services of others and placing sole reliance on the information furnished by such persons and assuming no responsibility for the accuracy thereof. The employment of persons to measure buildings, to estimate replacement or reproduction costs of improvements, or to gather any information to be used by the Appraiser will not be considered as transferring or subletting these portions of the appraisal assignment, provided the Appraiser assumes the responsibility for the accuracy of such measurements, estimates and any other information furnished by those whom the appraiser has employed.
15. In consideration of the performance of the undertakings under this contract, the Appraiser shall be paid by the County the lump sum of each approved proposal in agreements executed pursuant to the requirements of this contract, which shall constitute full payment to the Appraiser and shall include costs of all supplies, materials and equipment, and other expenses of any kind of nature including revisions or corrections incurred by the Appraiser in performing hereunder. The lump sum shown above shall also include the cost to the Appraiser of all necessary professional services such as that of an architect or building estimator unless otherwise stipulated by Highway Department letter to the Appraiser and in the Appraiser's proposal. Payment shall become due after the County Engineer has reviewed and approved the reports and a submission of an invoice approved by the County Engineer or his designee.

In addition to the lump sum, should it be necessary that the Appraiser appear in court on the County's behalf, or conferences preparatory thereto, the per diem fee for so doing, including all expenses, shall be \$ 500.00 per day.

16. The Appraiser warrants that no company has been retained or person has been employed, other than a bona fide employee working solely for the Appraiser, to solicit or secure this agreement and that the Appraiser has not paid or agreed to pay any company, firm or person, other than a bona fide employee working solely for the Appraiser, any fee, commission, percentage, brokerage fee, gifts, or any other consideration, contingent upon or resulting from the award or making of this agreement. For breach or violation of this warranty, the County shall have the right to annul this agreement without liability.
17. The County at any time, by written order, can make any changes in this contract which may affect the contents, scope or number of copies of the appraisal reports to be delivered hereunder, or the time of delivery. If such changes justify an increase or decrease in the amount provided to be paid by this contract or in the time required for its performance, an equitable adjustment shall be made and the contract shall be modified in writing accordingly.
18. At the time of receipt and acceptance thereof, the appraisal report(s) to be furnished by the Appraiser shall become and remain the sole property of the County.
19. Except as otherwise provided in this contract, any dispute arising under this contract which is not disposed of by agreement shall be decided by the County Engineer, who shall reduce a decision to writing and mail or otherwise furnish a copy thereof to the Appraiser. Such decision shall be final and conclusive with respect to questions of fact unless, within ten days from the date of receipt of such copy, the Appraiser appeals therefrom to the Baldwin County Commission by furnishing the County Engineer a written notice of such appeal together with the grounds or position therefore; the County Engineer shall then transmit the file and issue to the Baldwin County Commission. The decision of the Baldwin County Commission or a duly authorized representative shall be final and conclusive unless determined by a court or competent jurisdiction to have been fraudulent, capricious or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. Nothing in this "Disputes" clause shall be construed as making final an administrative decision on a question on law. In connection with any appeal under the "Disputes" clause, the Appraiser shall be afforded an opportunity to be heard and to offer evidence in support of the appeal. Pending final decision of any dispute hereunder, the Appraiser shall proceed diligently with the performance of the contract and in accordance with the decision of the County Engineer or any modification thereof which may be made hereunder.
20. Failure on the part of the Appraiser to comply with the terms of this contract and to submit completed appraisals to the County Engineer within the specified time limit or to furnish supplemental information and documentation requested within the specified time limit will constitute cause for cancellation of this contract or any agreement made pursuant thereto.
21. Equal Rights Provisions: During the performance of this contract, the Appraiser, individually, and for any assignees and successors in interest of the Appraiser, agrees as follows:
 - (a) Compliance with Regulations: The Appraiser will comply with the Regulations of the Alabama Department of Transportation relative to nondiscrimination in Federally-assisted programs of the Department of Transportation (Title 49, Code of Federal Regulations, Part 21, hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this contract.
 - (b) Nondiscrimination: The Appraiser, with regard to all work performed after award and prior to completion of the contract work, will not discriminate on the ground of race, color, religion, sex or national origin in the selection and retention of subcontractors, including procurements of

materials and leases of equipment. The Appraiser will not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.

The Appraiser will comply with all provisions of Executive Order 11246 of September 24, 1965, as amended by Executive Order 11375, and the rules, regulations (41 CFR, Part 60) and relevant orders of the Secretary of Labor.

(c) Solicitations: In all solicitations either by competitive bidding or negotiation made by the Appraiser for work to be performed under a subcontract, including procurements of materials or leases of equipment, each potential subcontractor, supplier or lessor shall be notified by the Appraiser of the Appraiser's obligations under this contract and the Regulations relative to non-discrimination on the ground of race, color, religion, sex or national origin.

(d) Information and Reports: The Appraiser will provide all information and reports required by the Regulations, or orders and instructions issued pursuant thereto, and will permit access to its books, records, accounts, other sources of information and its facilities as may be determined by the Baldwin County Highway Department, ALDOT or the Federal Highway Administration to be pertinent to ascertain compliance with such Regulations, orders and instructions. Where any information required of an appraiser is in the exclusive possession of another who fails or refuses to furnish this information, the Appraiser shall so certify to the Baldwin County Highway Department, ALDOT or the Federal Highway Administration, as appropriate, and shall set forth what efforts have been made to obtain the information.

(e) Sanctions for Noncompliance: In the event of the Appraiser's noncompliance with the nondiscrimination provisions provided for herein, the Baldwin County Highway Department shall impose such contract sanctions as it or ALDOT or the Federal Highway Administration may determine to be appropriate, including, but not limited to:

- (1) Withholding of payments to the Appraiser under the contract until the Appraiser complies, and/or
- (2) Cancellation, termination or suspension of the contract, in whole or in part.

(f) Incorporation of Provisions: The Appraiser will include the foregoing provisions (a) through (f) in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations, orders or instructions issued pursuant thereto. The Appraiser will take such action with respect to any subcontract, procurement, or lease as the Baldwin County Highway Department, ALDOT or the Federal Highway Administration may direct as a means of enforcing such provisions including sanctions for noncompliance; however that, in the event an Appraiser becomes involved in, or is threatened with, litigation with a subcontractor, supplier, or lessor as a result of such direction, the Appraiser may request the County to enter into such litigation to protect the interests of the County and, in addition, the Appraiser may request ALDOT or the United States to enter into such litigation to protect the interests of the United States.

22. Participation by Disadvantaged Business Enterprises in Federal-Aid Programs

Policy: It is the policy of the U.S. Department of Transportation that Disadvantaged Business Enterprises (DBE), as defined in 49 CFR, Part 26, shall have the maximum opportunity to participate in the performance of contracts financed in whole or in part with Federal funds under this agreement. Consequently, the DBE requirements of 49 CFR, Part 26, apply to this agreement.

DBE Obligation: The recipient of funds under the terms of this agreement agrees to ensure that Disadvantaged Business Enterprises, as defined in 49 CFR, Part 26, have the maximum opportunity to participate in the performance of contracts and subcontracts financed in whole or in part with Federal funds provided under this agreement. In this regard, such recipient shall take all necessary and reasonable steps in accordance with 49 CFR, Part 26, to ensure that Disadvantaged Business Enterprises have the maximum opportunity to compete for and perform contracts and shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of U.S. Department of Transportation-assisted contracts.

Failure of the recipient of funds under the terms of this agreement, or failure of its SUBCONSULTANT (if a SUBCONSULTANT is authorized) to carry out the DBE requirements of this agreement, shall constitute a breach of contract and may result in termination of the contract by the COUNTY or such other remedy may be undertaken by the COUNTY as it deems appropriate.

23. **This Contract shall in all respects be construed and enforced according to the laws of the State of Alabama, without regard to Alabama conflict of laws principles.**
24. **Appraiser shall use forms and form numbers as required by ALDOT at the time(s) at which related appraisal reports are submitted hereunder. Additionally, Appraiser shall comply with all federal regulations which are applicable at the time(s) services are rendered hereunder.**

IN WITNESS WHEREOF, the parties hereto have executed this contract on the day and date first above written.

To the extent that any of the following provisions are applicable to this Agreement or to any project being performed pursuant to and at anytime during the term of this Agreement, the Appraiser agrees to be bound by these laws, without limitation. The term "Project" as used herein means, without limitation, any activity or project performed by the Appraiser pursuant to this Agreement.

No Federal Government Obligations to Third Parties.

In connection with the Project, the Appraiser agrees that, absent the Federal Government's express written consent, the Federal Government shall not be subject to any obligations or liabilities to any lessee, third party contractor, or other participant at any tier of the Project or this Agreement, or other person or entity that is not a party to the Grant Agreement or Cooperative Agreement for the Project. Notwithstanding that the Federal Government may have concurred in or approved any solicitation, subagreement, lease, third party contract, or arrangement at any tier, the Federal Government has no obligations or liabilities to any entity other than the Recipient, including any lessee, third party contractor, or other participant at any tier of the Project.
