Dear Mr Ball,

Five Rivers have agreed to host our charity bicycle ride on July 14, 2019. The charity ride will be named "The Dead Head Ride" to bring awareness to traumatic brain injury and PTSD suicide deaths related to veterans and others with TBI and PTSD. All proceeds will be used for Hyperbaric Oxygen Therapy (HBOT) for treatment of TBI, PTSD, concussion syndrome, among other conditions. Bicycle safety will also be a topic. Mr. Lusk has also offered his services the day of the event. Your approval for this to take place is necessary. Please contact me in regards to your approval.

Sincerely,

Dr. Lloyd Manchikes M.D.
