Subject: <EXTERNAL> 30 day termination- Video Broadcast contract

Hello,

I, Dave Sands, owner of Sands Tech AV, would like to exercise the 30 day termination clause stated within the active video broadcast contract between Baldwin County commission and Sands Tech AV. This contract was to provide broadcast production support during the county commissioner meetings and other video support.

I would like to thank the staff of Baldwin county for a wonderful two year relationship on behalf of Sands Tech AV and our staff. We are excited to see the growth and responsibilities of the Baldwin County staff have development in taking over the video broadcast system.

Keep us I mind for future Audio-visual projects!

Let us know if you have any questions or concerns.

Cheers,
Dave Sands
