Linda

Thank you for you and your staff's work. I know it is a difficult job, but I appreciate the diligence with regard to the decision the staff made in following the ordinances. As mentioned this morning, I am attaching the map I gave to the Commissioners for your file. As this shows the current request would be incompatible with the area which is spoken to in the ordinance. The comment made this morning that the City of Elberta be considered in a compatibility review, I feel is in error, as that is an incorporated, urban area and should not be compared to an un-incorporated, rural area. That's an apples and oranges comparison. Since you will be out on the 16th, please pass this along to Vince.

Thanks so much

Bruce E. Austin, Jr.
