

The Complete Trip

5. Arrival at Destination

Andy safely arrives at his destination, while the **pre-trip concierge application** plans his return trip home.

4. Cross the Street

As Andy approaches an intersection, his **safe intersection crossing application** communicates with the traffic signal.

3. Ride the Bus

While on the bus, Andy receives direction on when to pull the Stop Request cord from his **wayfinding and navigation application**.

1. Plan and Book a Trip

Andy uses a **pre-trip concierge application**.

2. Travel to Transit Station

An **automated shuttle** (rideshare service) is dispatched.
