ITEM TITLE

*Case No. Z-19009 - Seaglade at St. Andrews Bay Planned Residential Development (PRD) Site Plan

STAFF RECOMMENDATION

Adopt Resolution #2019-053, which APPROVES, with the condition that the access road be paved with either asphalt or concrete as required by the US Fish and Wildlife Service, Case Z-19009, Seaglade at St. Andrews Bay Property, as it pertains to Planned Residential Development (PRD) Site Plan Approval for Seaglade at St. Andrews Bay, which would include approximately 10.53 acres located in Planning (Zoning) District 25.

BACKGROUND INFORMATION

Previous Commission action/date: August 15, 2017 (Rezoning Approved). March 19, 2019 (Tabled for 60 days. To be brought back on May 7, 2019).

Background:

This item was replaced due to an incorrect attachment.

The proposed Planned Residential Development (PRD) is to be known as Seaglade at St. Andrews Bay. The subject property is currently undeveloped and is zoned RSF-1, Single Family District, and RSF-4, Single Family District. It adjoins State Highway 180 to the north, Triple Tail Lane to the east and Pontoon Lane to the west. If approved, the development would include 27 single family lots on approximately 10.53 acres, for a density of 2.56 dwelling units per acre. The largest lot would be 13,396 square feet, and the smallest would be 6,751 square feet. Proposed open space would be 183,706 square feet (approximately 40 percent/20 percent required) and would include a deed restricted area for Lots 18 through 27.

The original proposal included a gravel access road. According to Fish and Wildlife, however, the road must be either asphalt or concrete.

On February 7, 2019, the Planning Commission voted to recommend approval of the Seaglade at St. Andrews Bay PRD Site Plan, without the originally proposed gravel road.

On March 19, 2019, the County Commission voted to table this request for 60 days, to be brought back before the Commission on May 7, 2019.
