ITEM TITLE

American Rescue Plan Act (ARPA) Eligible Uses of Funds

STAFF RECOMMENDATION

Discuss the establishment of an advisory committee and project recommendations based on the eligible uses of funds available under the American Rescue Plan Act (ARPA).

Within the categories of eligible uses, recipients have broad flexibility to decide how best to deploy funding to meet community needs. Use of Fiscal Recovery Funds is generally forward looking. The Rule permits funds to be used to cover costs incurred beginning on March 3, 2021, and must be obligated by December 31, 2024.

Goals of Funding:

- To support urgent COVID-19 response efforts to decrease spread of the virus and bring the pandemic under control.
- To replace lost public sector revenue to strengthen support for vital public services and help retain jobs.
- To support immediate economic stabilization for households and businesses.
- To address systemic public health and economic challenges that have contributed to the unequal impact of the pandemic on certain populations.

Funds may be used to:

- Support public health expenditures, by funding COVID-19 mitigation efforts, medical expenses, behavioral healthcare, and certain public health and safety staff.
- Address negative economic impacts caused by the public health emergency, including economic harms to workers, households, small businesses, impacted industries, and the public sector.
- Replace lost public sector revenue, using this funding to provide government services to the extent of the reduction in revenue experienced due to the pandemic.
- Provide premium pay for essential workers, offering additional support to those who have borne and will bear the greatest health risks because of their service in critical infrastructure sectors.
- Invest in water, sewer, and broadband infrastructure, making necessary investments to improve access to clean drinking water, support vital wastewater and stormwater infrastructure, and to expand

access to broadband internet.
