BACKGROUND INFORMATION

Previous Commission action/date: N/A

Background:

In unzoned areas, the Baldwin County Subdivision Regulations require that:

"RV parks and campgrounds <u>sites / units</u> shall <u>be located a minimum</u> <u>of thirty (30) feet from any exterior property line</u> or wetland."

On November 5, 2020, the Baldwin County Planning Commission heard, and, on staff's recommendation, approved a Final Site Plan for Hookbone RV Park with forty-one (41) recreational vehicle sites. The Final Site Plan was approved at that November meeting with all sites encroaching into the 30-foot RV park setback required in the subdivision regulations. (See Attachment A - Original Site Plan)

The property is located within the Summerdale extraterritorial jurisdiction (ETJ), so it is not completely clear why the case was brought to the County Planning Commission. There may have been a prior practice of bringing all Planned Developments to the County Planning Commission even though the subdivision regulations require only administrative approval of Planned Developments within an ETJ.

Because the project was located in the Summerdale ETJ, the Summerdale Planning Commission also heard the case on February 18, 2021, and approved a "Preliminary Plat" for the Hookbone RV Park with a substantial reconfiguration, the addition of more RV sites, and numerous variances.

The substantial changes required the applicant to come back to the county for approval of the revised site plan. On rereview, the County Planning and Zoning staff discovered the encroachment into the required 30' setback line and informed the applicant that he would need to apply for a variance. (See Attachment B - Revised Site Plan)

The variance request was heard at the August 5, 2021, Baldwin County Planning Commission meeting. Staff recommended denial due to the non-demonstration of a hardship for which a variance is warranted. However, staff also highlighted the nuance of the particular situation and the fact that Summerdale supported approval of the RV park with a smaller setback. The Planning Commission denied the variance request by a vote of 4 to 2. (See Attachment C - Variance Staff Report)

On August 9, 2021, Matthew Brown, in his capacity as the Planning Director, denied the Hookbone RV Park Final Site Plan application due to the prior denial of the variance request.

Staff received a notice of appeal from the applicant, Mr. Ricky Hudson, on August 9, 2021, which is within the 30 days required for an appeal under the Subdivision Regulations. On August 12, 2021, Matthew Brown submitted a copy of the file to the County Commission, County Administrator, County Attorney, and the County Engineer as required by the Subdivision Regulations.

The subdivision regulations dictate that appeals "shall be heard by the Baldwin County Commission at such regular or special meeting as the Baldwin County Commission shall determine, in its discretion." And that, "[i]n the hearing of such appeals, the standard of review to be exercised by the Baldwin County Commission shall be de novo."

In a de novo review, the Baldwin County Commission will review the decision of the Planning Commission as if it were a completely new case and as if the Planning Commission had not rendered a decision.

Staff mailed a notice of the public hearing for the appeal to adjacent property owners on August 27, 2021.
