ITEM TITLE

Coroner's Office - Case Management System

STAFF RECOMMENDATION

Dr. Brian Pierce, Coroner, would like to discuss the opportunity to provide the Baldwin County Coroner Case Management System (CMS) Program to other Alabama Coroners and state agencies.

BACKGROUND INFORMATION

Background: The Baldwin County Coroner's Office has worked with the Baldwin County CIS Department to develop an in-house Case Management System or CMS. The CMS has been in use since the end of June, 2022. Many Coroners across the State of Alabama do not have a platform or system to house their cases and they continue to rely on paper documents, PDF files, or in some instances no documentation at all.

The Coroner's Office has a responsibility to report vital statistics to several different agencies including ADPH, CDC, VAERS, etc. Those offices who do not have a systematic method like the CMS struggle to generate statistical data for reporting and tracking purposes. This inability has an effect on all of us.

Currently there are 8 - 10 counties within the State of Alabama who are interested in paying for use of the CMS Baldwin County has created.
