Background: On September 16, 2020 Baldwin County Alabama was impacted by Hurricane Sally. To date the County has collected more than three million cubic yards of vegetative debris from the county rights-of-way. The Baldwin County Commission's debris contract requires all vegetation to be ground. The Baldwin County Solid Waste Department wishes to request a minor modification to the existing landfill permits to allow for this material to be used as Alternative Daily Cover. Operation Plan Guidance for each County Landfill is attached and will accompany the executed forms with submission to ADEM. The Development and Environmental Director has requested Finance and Accounting to issue checks to ADEM for the requested minor modification.
